

**Uniform Business Office**

# **OUTPATIENT ITEMIZED BILLING TRAINING COURSE**

**2002 FUNCTIONAL TRAINING**

# *Agenda*

## ***OUTPATIENT ITEMIZED BILLING TRAINING COURSE***

### **Day One**

#### **Morning**

Welcome and Introductions

Tab 1: Outpatient Itemized Billing Training Agenda

Tab 2: Outpatient Itemized Billing Overview

Tab 3: Procedure Coding and System Automation

#### **Afternoon**

Tab 4: Evaluation and Management (E/M)

Tab 5: Use of Modifiers

Tab 6: CMS-1500 Claim Form

Tab 7: CMS-1450/UB-92 Claim Form

### **Day Two**

#### **Morning**

Tab 8: Pharmacy

Tab 9: Universal Claim Form (UCF)

Tab 10: MSA and MAC

Tab 11: Supporting Documentation and Coding for Accurate  
Billing

Tab 12: Compliance “Always On Your Mind”

**Afternoon**

Tab 13: Collecting OHI Documentation

Tab 14: MTF and Payer Concerns

Tab 15: Department of Veterans Affairs Lessons Learned

**Day Three**

Tab 16: Keys to Change

Tab 17: Keys to Training

Tab 18: Keys to Implementing OIB at your MTF

## **TRAINING MATERIAL DISCLAIMER**

Standard Technology, Inc., allows DoD organizations and individuals to reproduce/print proprietary materials for in-house educational use only. The photocopies or reproductions are not to be “used for any purpose other than private or group study.” Copied materials must include the full proprietary citation on each page.

# TRAINING COURSE OVERVIEW

# Objectives

- **Review the evolution of the Outpatient Itemized Billing implementation**
- **Provide purpose of Outpatient Itemized Billing Training Course**
- **Discuss functional training goals and objectives**
- **Discuss “parking permits”**
- **Review OIB Training Course agenda and manual**
- **Discuss Team Agreement**

# Evolution of Outpatient Itemized Billing

- **OIB methodology development involved MTF and DoD representatives**
- **Business rules developed in CY 00 to CY 02**
  - System change requests were drafted based on business rules for changes to CHCS, ADM and TPOCS
  - Involved many work group meetings for system and functional issues
- **National Defense Authorization Act FY 01 authorized MTFs to move from “reasonable costs” to “reasonable charges”**

# Evolution of Outpatient Itemized Billing

- **Billing/Coding training needs assessment survey was developed in January 01**
- **Training materials were developed and a pilot class was presented in August 01**
- **OIB concepts were presented at UBO Conference in CY 00 and CY 01**
- **OIB concepts also presented at TRICARE CY 01 and CY 02**

# Purposes of OIB Training Course

- Provide education to MTF staff for the transition to Outpatient Itemized Billing
- Foster an environment for active learning and networking

# Functional Training Objectives

Using the “Train the Trainer” concept, functional training will:

- Provide a thorough understanding of Outpatient Itemized Billing concepts, policies, procedures and guidelines that apply to the Uniform Business Office
- Provide a basic overview of coding principles and applications as they pertain to OIB
- Provide instructions for completing the UB-92, CMS-1500, UCF, DD7A and I&R claim/billing forms as they apply to OIB
- Provide tools to help with the implementation of OIB

# Parking Lot Ground Rules

- The parking lot is a placeholder for questions that cannot be readily answered
- Participants should hold their questions until the end of each presentation
- For questions that require further research or pertain to systems, participants should place those on the provided “parking permits”
- All parking lot questions will be researched and responded to in a timely manner
- Trainers will collect parking permits at the end of each day

# Training Course Agenda

# Training Course Manual

# **Team Agreement**

- **Give 100% of yourself this week**
- **Allow trainers to respond to questions first**
- **We have a lot to cover each day; please be prompt**
- **Hold all questions until after each presentation**

Uniform Business Office  
Outpatient Itemized Billing Training Course

# OUTPATIENT ITEMIZED BILLING OVERVIEW

# Objectives

- 
- **Discuss driving forces for Outpatient Itemized Billing implementation**
  - **Discuss OIB concepts and process**
  - **Explain data sources**
  - **Discuss TPC and MSA overview**
  - **Explain calculating rates**
  - **Discuss impact on DoD and Payers**

# Driving Force

- 
- **Desire to align Outpatient Itemized Billing methodology with the civilian sector**
  - **Lack of itemized charges prevents electronic billing of the CMS-1500**
  - **CFR published FY 2001 sunset clause contingent on transition to itemized billing**
  - **Improve Outpatient encounter coding and documentation**
  - **Ensure billing accountability and compliance**
  - **Standardization of SIT/OHI to support health insurance portability throughout the Military Health System**

# OIB Concepts

- **Moving away from all-inclusive outpatient charges to itemized charges which includes:**
  - Services/procedures received in count/non-count visits Standard Ambulatory Data Record (SADR)
  - Visits documented with E/M codes
  - Ancillaries-laboratory, radiology, pharmacy (CHCS feed)
- **Modifiers will be incorporated to further define certain services/procedures**
- **OHI will be captured in CHCS and drives the bill**
  - Now there's more of an emphasis on the revenue cycle and the capture of OHI at the front end

# OIB Process

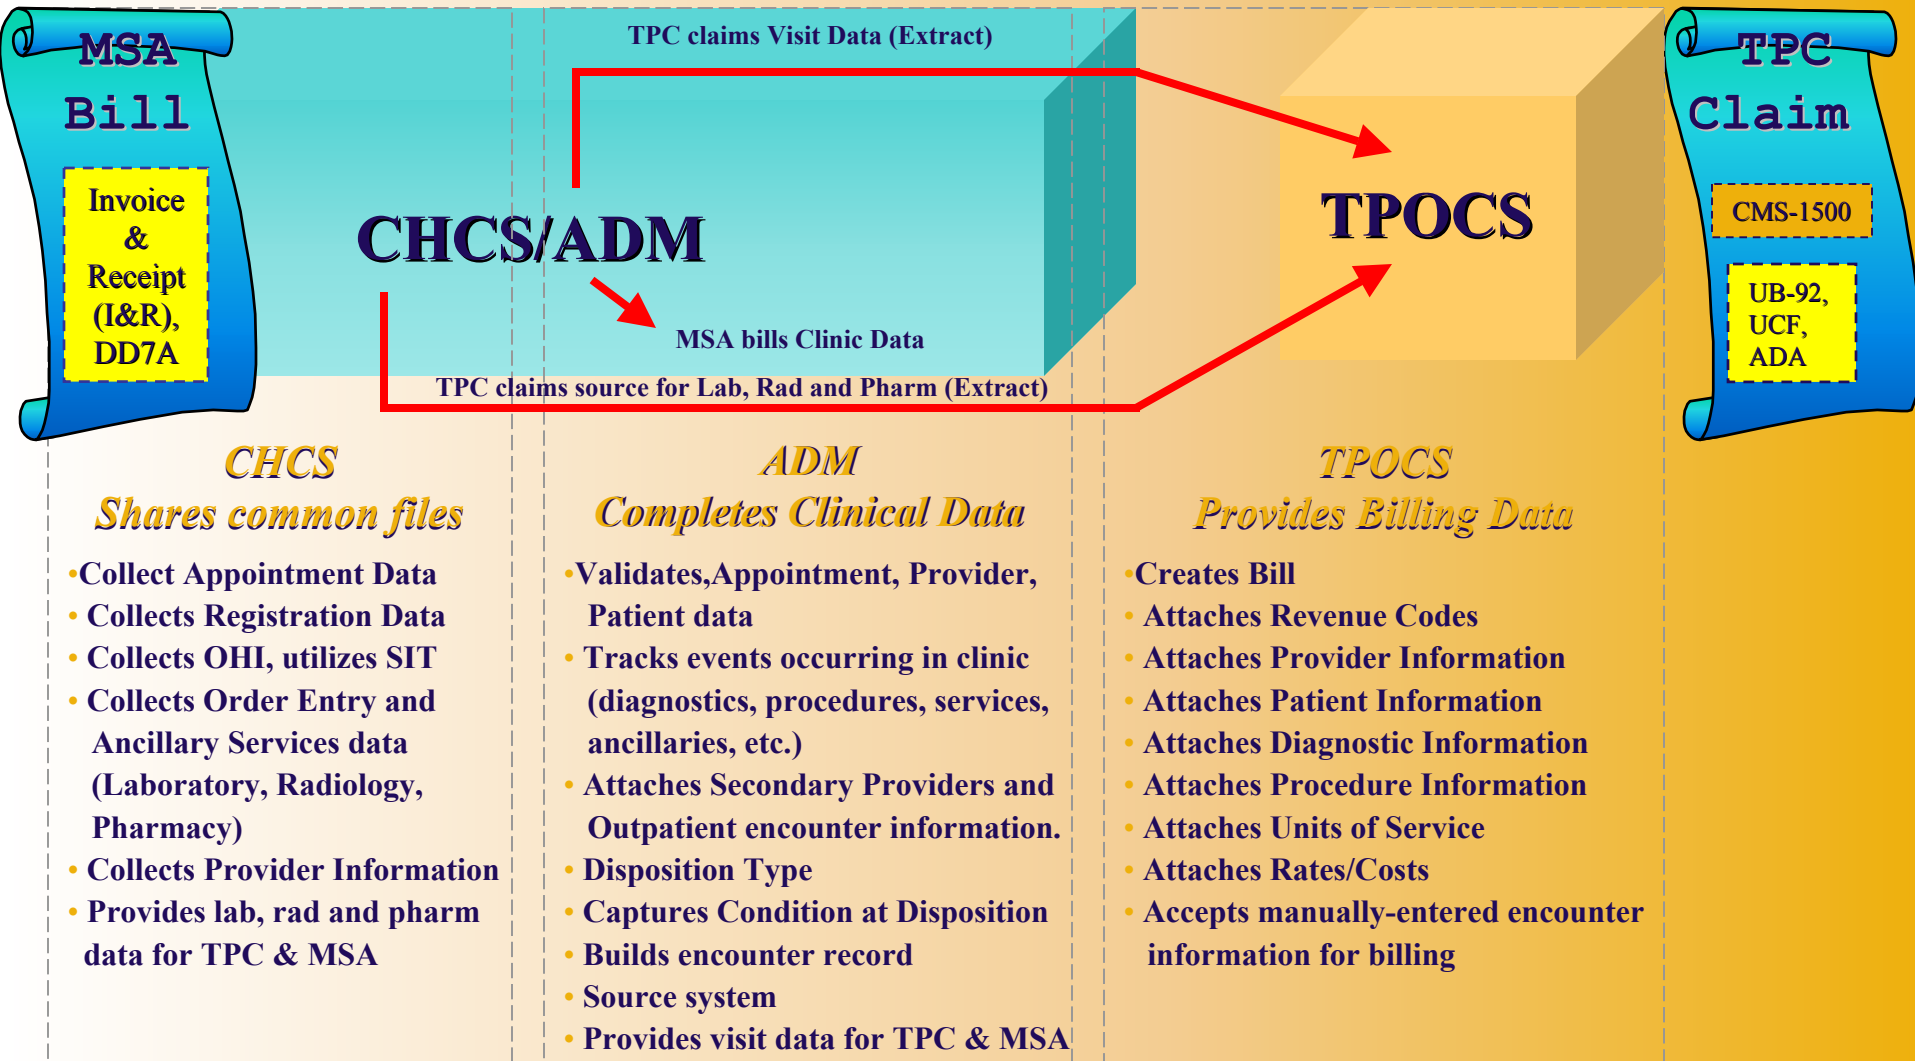

- **Itemized charges will be reflected on the following claim forms within Third Party Outpatient Collection System (TPOCS):**
  - CMS-1500
  - UB-92
  - American Dental Association (ADA)
  - Universal Claim Form (UCF)
- **Itemized charges in Outpatient MSA will be produced on the I&R and DD7A forms**
- **No changes for inpatient charges will occur in this first phase of implementation**

# Data Sources

- **CHCS: Composite Health Care System**
- **ADM : Ambulatory Data Module (formerly KG-ADS, now a module within CHCS)**
- **TPOCS: Third Party Outpatient Collection System**

# Systems Outpatient Information Flow

# TPC Claim Forms

**Clinic Visit**

**UB-92**  
**Clinic Services**  
**Supplies**

**CMS-1500**  
**Professional Services**  
**Anesthesia**  
**E/M Codes**

**Ancillary Clinic Visit**  
**(Lab, Rad, Pharm)**

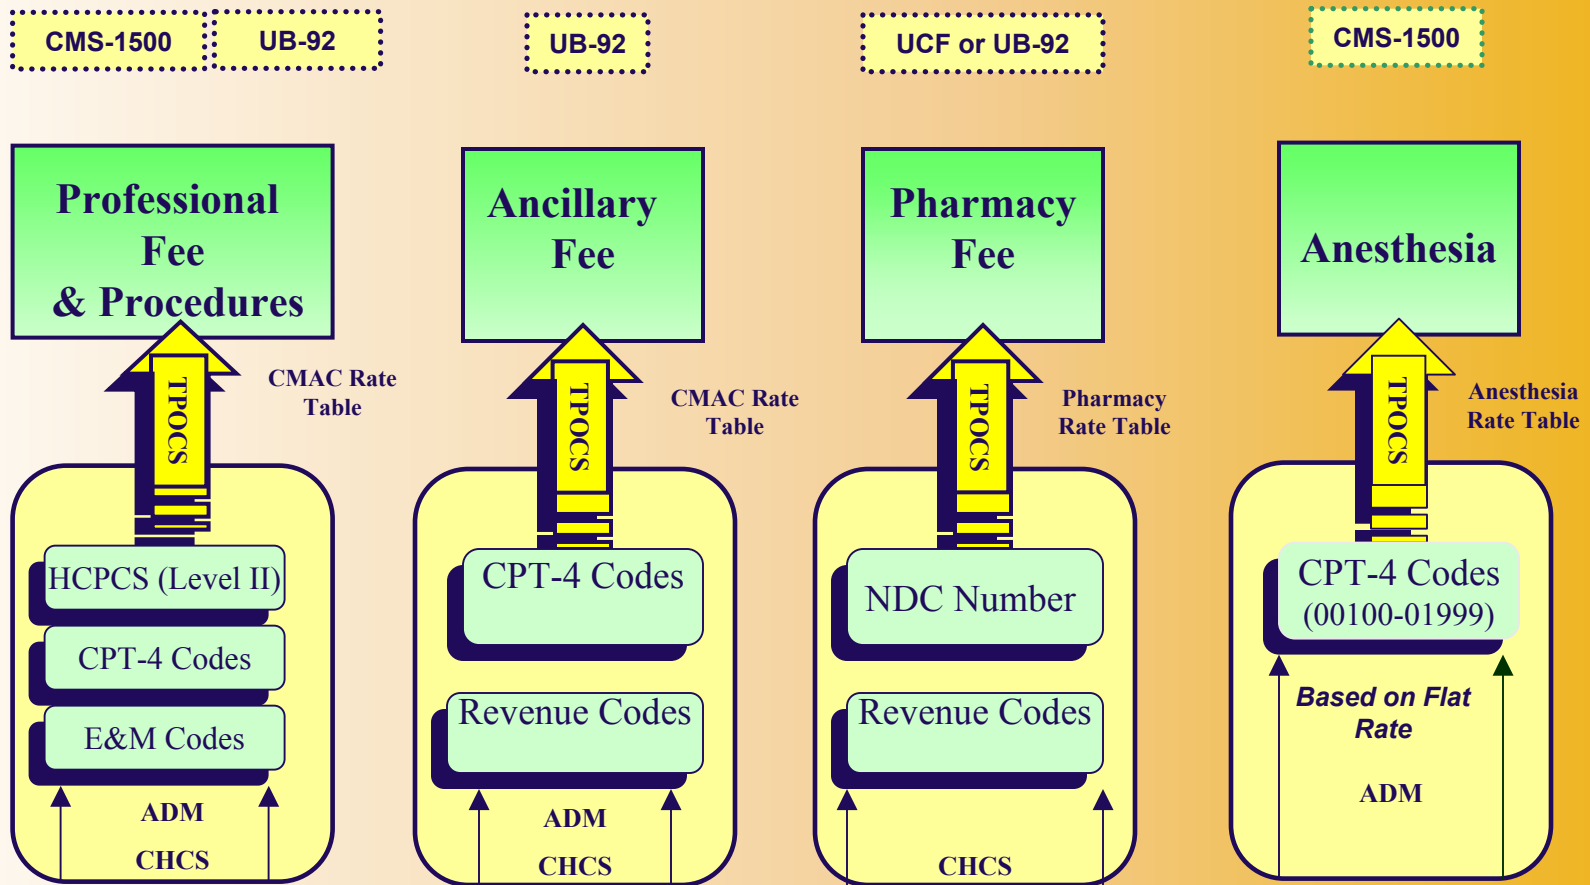

**UB-92**  
**Ancillary Services**  
**for Lab and Rad**  
**not performed in clinic**

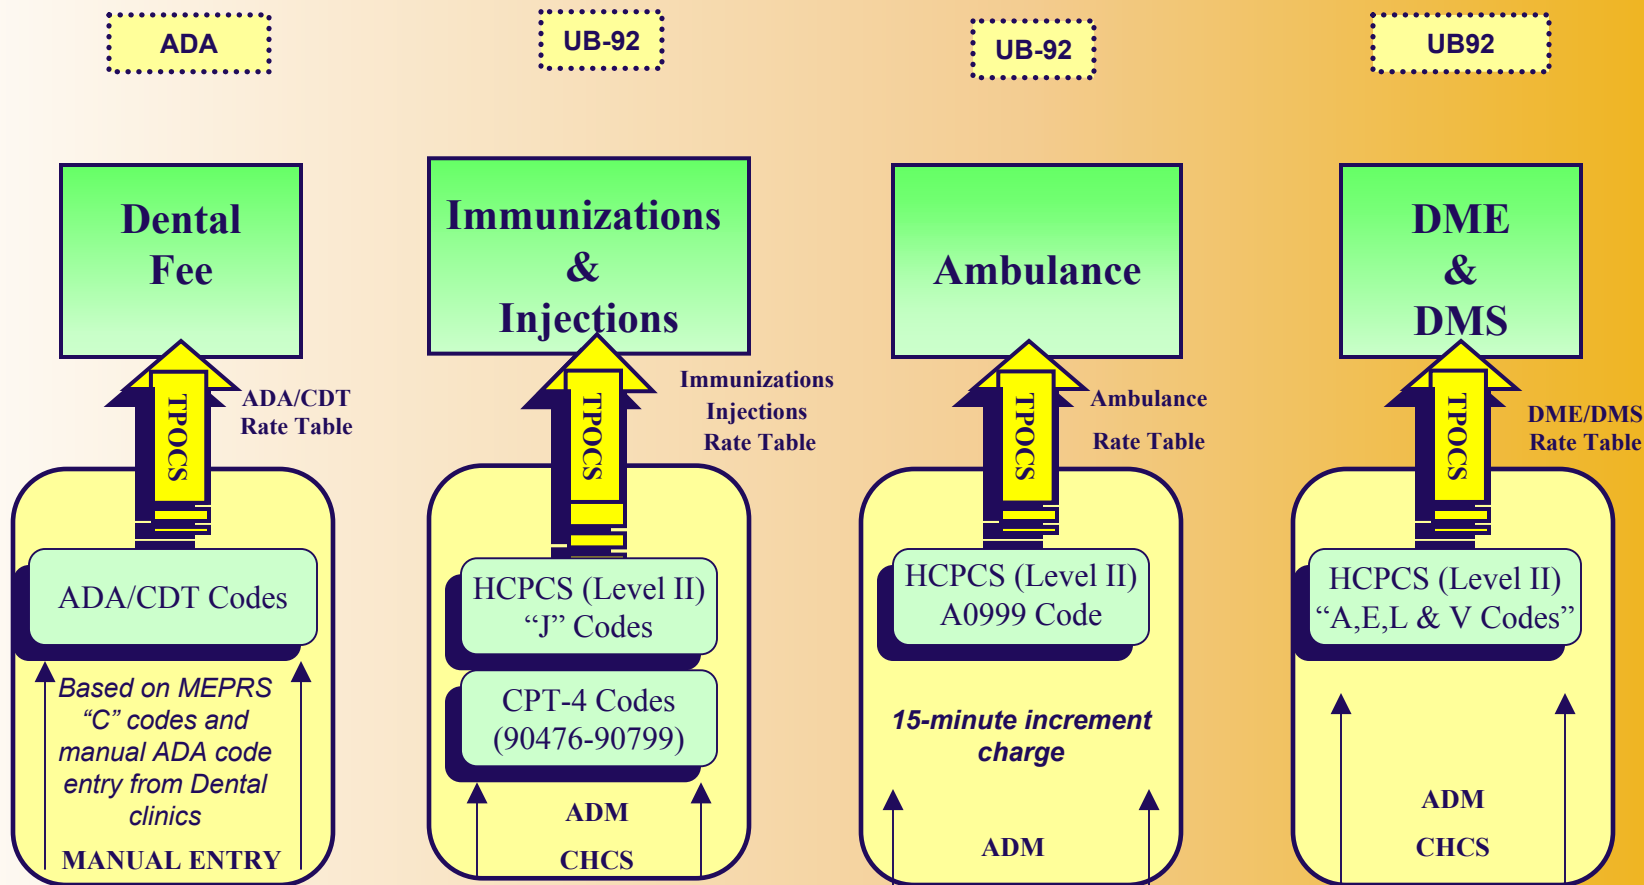

**UCF or UB-92**  
**Pharmacy**

# TPC Outpatient Itemized Billing Methodology

# TPC Outpatient Itemized Billing Methodology

# MSA Billing Forms

**Clinic Visit**

## **I&R/DD7A**

**Clinic Services/Professional  
Services/Supplies**

**Itemized Charges listed on  
I&R, consolidated for DD7A**

**Ancillary Clinic Visit  
(Lab, Rad, Pharm)**

## **I&R/DD7A**

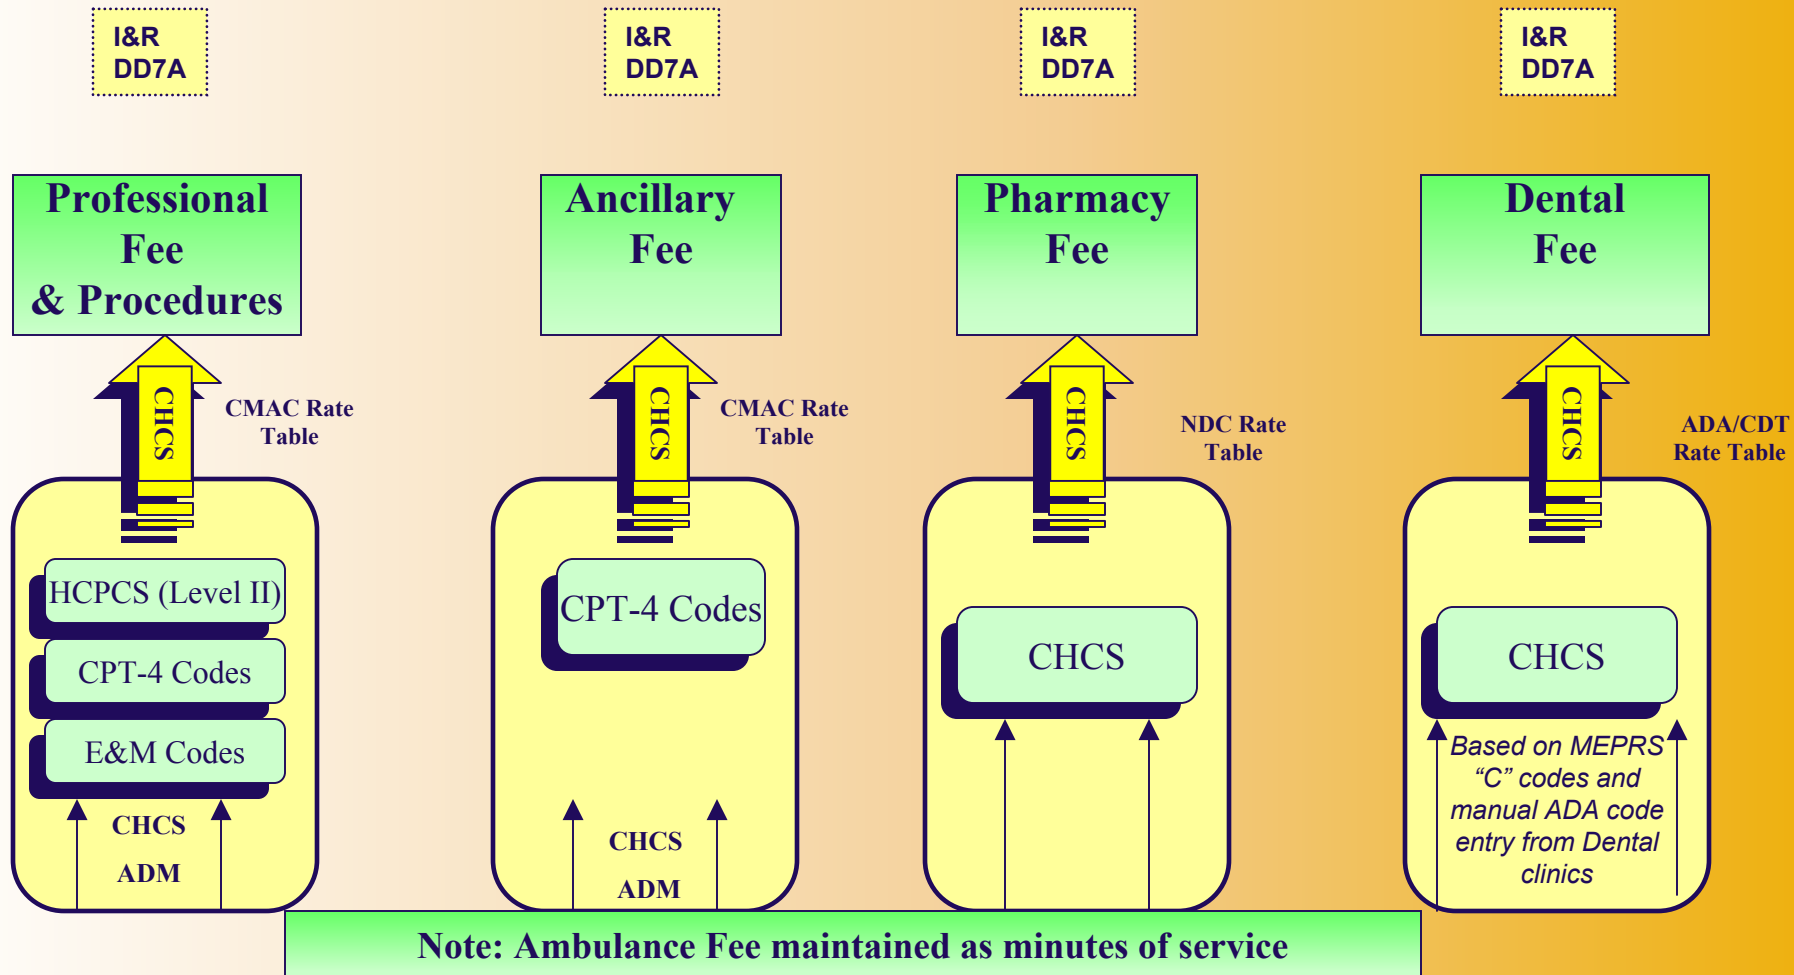

**Ancillary Services  
for Lab and Rad  
not performed in clinic**

## **I&R/DD7A**

**Pharmacy**

# MSA Itemized Billing Methodology

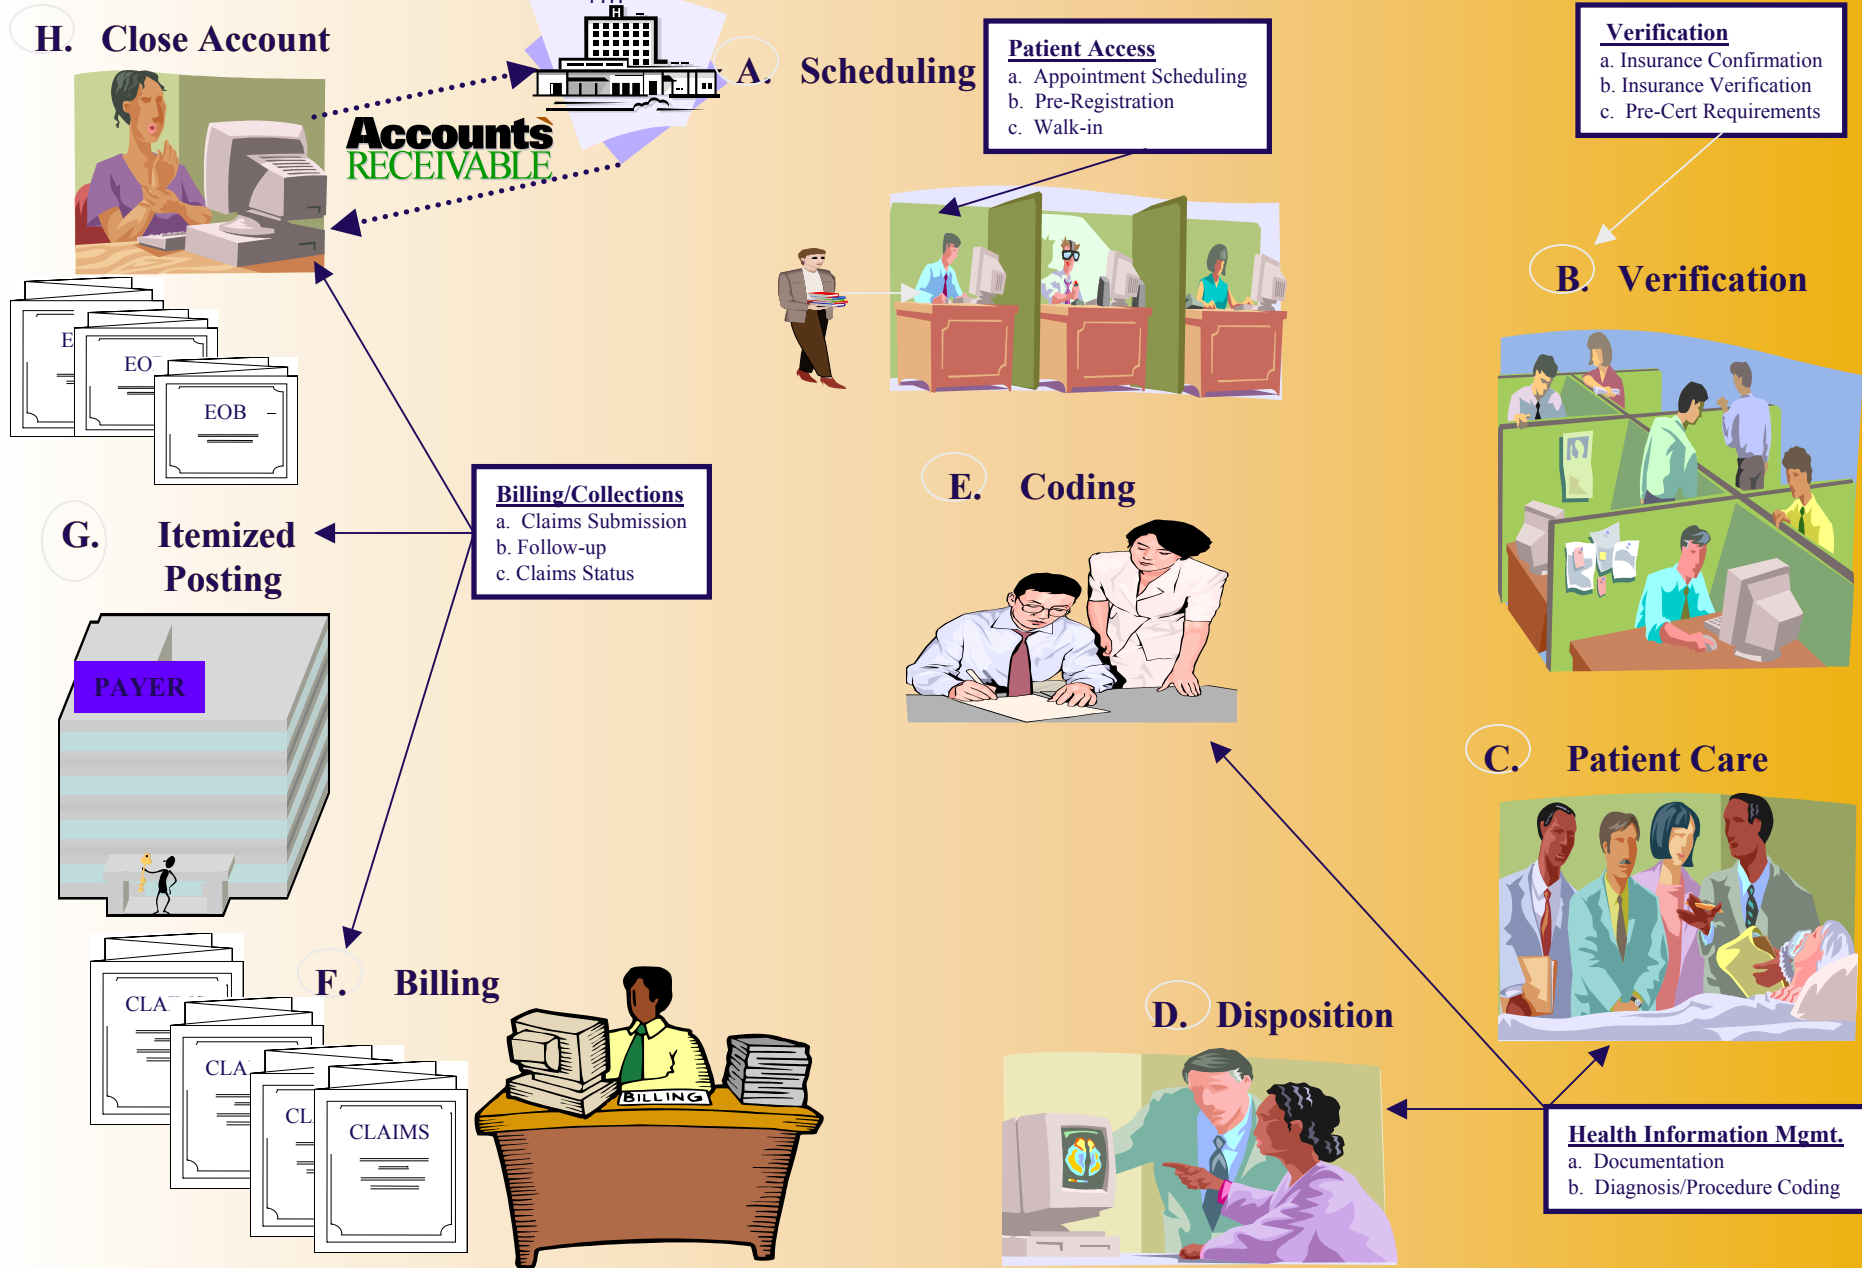

# Calculating Rates

- **The systems (both CHCS and TPOCS) will contain the following rate tables:**
  - CMAC
    - Non-CMAC
    - Component
  - Anesthesia
  - DME/DMS
  - Pharmacy
  - Dental
  - Ambulance
  - Immunizations/Injections
- **All rate tables (except for pharmacy) will be updated yearly**

# THE KEYS TO OUTPATIENT ITEMIZED BILLING

## The MTF Revenue Cycle

# Impact of Itemized Billing

- **Changes in MTF-wide business operations:**
  - Evaluation of current business practices: (revenue cycle)
    - Increased workload (e.g. multiple claim forms/encounter)
    - Additional resources (e.g. equipment, FTEs)
    - Optimization of revenue
    - More automated process
- **Stakeholders involved:**
  - **DoD**
    - Providers
    - Coders
    - Billers
    - Clerks
    - Registration
    - Patients
  - **Payers**
  - **Systems**

# **Impact on DoD Provider/Staff**

- **Ability to code based on specific care provided to the patient with the use of modifiers:**
  - Bilateral procedures
  - Multiple biopsies
  - Multiple surgery providers
- **Use of professional and technical component for reading and performing a test when applicable**
- **Additional Claims Processing:**
  - Enhanced Automation
  - Auditing (internal or external)
  - Increased Follow-up

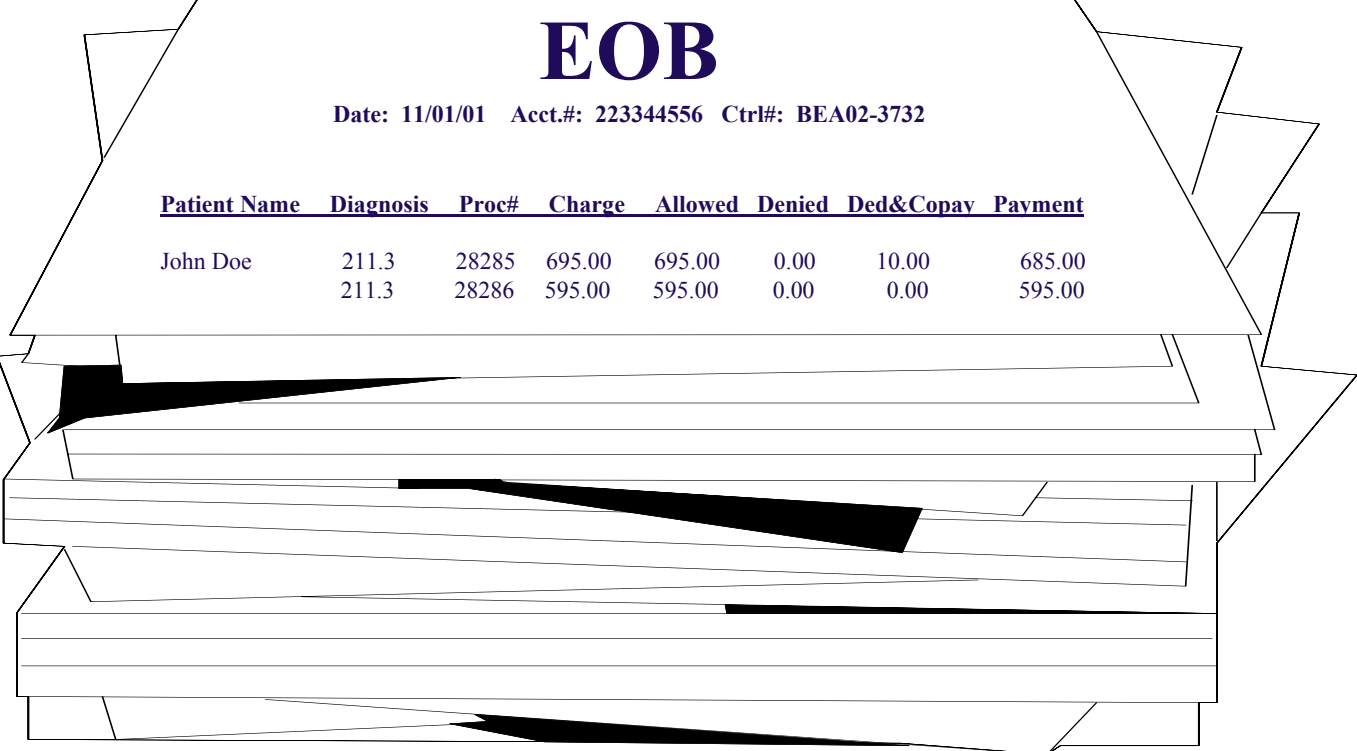

# Impact on DoD Patients

- Easier interpretation of Explanation of Benefits (EOB)

**EOB**

Date: 11/01/01 Acct.#: 223344556 Ctrl#: BEA02-3732

<u>Patient Name</u>	<u>Diagnosis</u>	<u>Proc#</u>	<u>Charge</u>	<u>Allowed</u>	<u>Denied</u>	<u>Ded&amp;Copay</u>	<u>Payment</u>
John Doe	211.3	28285	695.00	695.00	0.00	10.00	685.00
	211.3	28286	595.00	595.00	0.00	0.00	595.00

# Impact on Payers

- **Aligns DoD claims with civilian sector by using industry standards**
- **Easier to understand and process**
- **Reimburse line item charges**
- **Allows payers to conduct accurate research and analysis of disease and social trends based on utilization of services**

# **Impact on Systems**

- **Synchronization of TPOCS/CHCS Standard Insurance Table (SIT) and Other Health Insurance (OHI)**
- **Automation of pharmacy, laboratory and radiology data transfer**
- **New Rate Tables**
- **Accommodate Medical Services Account (MSA) billing within CHCS**
- **Secure and efficient electronic billing capabilities**

Uniform Business Office  
Outpatient Itemized Billing Training Course

# Procedure Coding and System Automation

"Procedure Coding and System Automation"

Version 2.0

Standard Technology, Inc., Falls Church, VA.

- This is a functional overview of Revenue and CPT-4 codes and how these codes feed into the Outpatient Itemized Billing process.

# Objectives

- **Explain procedure coding responsibilities**
- **Explain how an encounter becomes a bill**
- **Identify system default claim forms**
- **Discuss revenue code mapping**
- **Explain rate tables and calculating charges**

# Procedure Coding Responsibilities

- **CPT-4/HCPCS - Provider and/or Coder**
- **Revenue Codes - System Generated**

- CPT-4 means Current Procedure Terminology 4<sup>th</sup> Edition.

# CPT-4/HCPCS Codes

- **Healthcare Common Procedure Coding System (HCPCS)**
  - **HCPCS** is a uniform method for health care providers and medical suppliers to report professional services, procedures and supplies
  - **Current Procedural Terminology** CPT-4/HCPCS Level I is a standardized system of five-digit codes and descriptive terms used to report the medical services and procedures used by clinicians

Proprietary 2002

"Procedure Coding and System Automation"

Version 2.0

Standard Technology, Inc., Falls Church, VA.

4

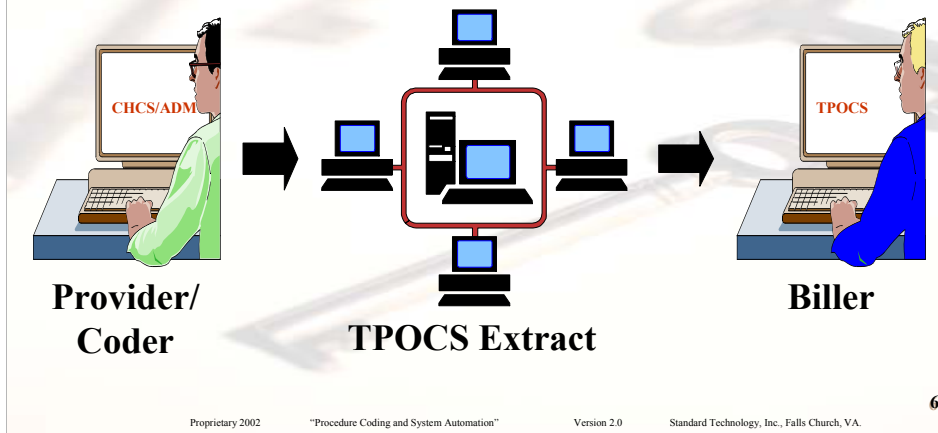

- As a biller, you are **NOT** responsible for coding medical procedures and services. The provider/coder is the responsible party.
- The **HCPCS** system consists of three levels of codes:
  - **Level I** - Level I is the American Medical Association's CPT-4 codes.
  - **Level II** - HCPCS National Codes - Alpha-numeric five digit codes representing medical services and supplies that are not included in Level I. (Used mainly for reimbursement of Medicare and Medicaid claims)
  - **Level III** - Local Codes - Alpha-numeric five digit codes, which describe new procedures that are not yet available in Level I and II.
  - If you want to know more about the actual HCPCS codes, look at references such as the HCPCS book, which comes out yearly.
- **CPT-4** codes are developed, updated and published yearly by the American Medical Association:
  - CPT-4 codes communicate to providers, patients and payers the procedures performed during a medical encounter.
  - Accurate CPT-4 coding is crucial for proper reimbursement from payers and compliance with government regulations.
  - If you want to know more about the actual CPT-4 codes, look at references such as the CPT book, which comes out yearly.

# Revenue Codes

- **Identifies a specific accommodation or ancillary charge on the UB-92 Claim Form**
  - Form Locator 42
    - Paper UB-92: 23 lines available
      - Lines 1-22 available for line item charges
      - Line 23 available for total charges of all itemized lines
    - Electronic UB-92: 56 lines available
  - Listed in ascending numeric sequence
  - Assigned for each line-item charge

- Familiarity of revenue codes is the responsibility of the biller. This is a high level overview and we will not be going into detail on all revenue codes. For more information on actual revenue codes, refer to the UB-92 Editor.
- Revenue codes are used on the UB-92 Claim Form only:
  - They will be populated on Form Locator 42.
- Listed in numeric sequence except for revenue code 001 (total charges), which goes at the end of all the line items for the sum of all the charges.
- Examples of **Revenue Codes**:
  - 320 = Radiology – Diagnostic
  - 333 = Radiation Therapy
  - 450 = Emergency Room – General
  - 545 = Air Ambulance

# How An Encounter Becomes A Bill

- CPT-4/HCPSC Coding completed by Provider/Coder in CHCS/ADM:
  - Even though the biller is not responsible for the actual procedure/service coding, if the biller questions the validity, the bill may be put in a suspense file until procedure/service coding is validated.
  - If coding changes need to be made, they will have to be done by the provider/coder in the source system (CHCS/ADM).
- TPOCS Extract - CHCS/ADM will provide downloads of outpatient appointment encounter data and patient demographics and send it to TPOCS:
- Hold periods have been put in place to cut down the number of claims.
  - Prior to transmission, there is a 72 hour hold period to allow for entry of OHI information in CHCS.
  - TPOCS will hold the information for 7 days to allow time for the coding of any additional ancillary services (lab and rad) and 14 days for pharmacy services that were not performed in the same clinic as the original encounter.
  - If during the hold period, the ancillary services come across in the TPOCS extract, then the system will match up the ancillary service with the original encounter and be billed on one UB-92 claim form.
  - If the ancillary services were not coded before the original encounter is billed, then they will be billed on a different UB-92 claim form
    - NOTE: when the hold period is up, the bill will NOT automatically be sent to the payer. The biller must still verify the information on the claims before queuing the bill.
- **Note: Although certain fields are not requirements in CHCS, they may be required in TPOCS. If a required field is not populated, the encounter will not be sent to TPOCS (e.g. Patient Address)**
  - If there is incomplete/missing information, the entire encounter record will not transfer to the TPOCS extract.
- When codes (ICD-9-CM, CPT-4/HCPSC) are added or removed from the previously filed encounter, it is sent in a new extract to TPOCS as an updated record:
  - This updated record is a replacement for the previous encounter record and contains all the information, not just the updated information.
  - The bill can then be validated and finalized by the biller.

# System Default Claim Forms

- The TPOCS extract received from CHCS/ADM automatically splits charges into UB-92, CMS-1500 and UCF claim forms
- The code range will determine the form generated

– Examples:

99201-99499, E&M codes, anesthesia	→	<b>CMS-1500</b>
70010-79999, radiology codes with modifier - 26	→	<b>CMS-1500</b>
70010-79999, radiology codes with modifier - TC	→	<b>UB-92</b>
80048-89399, path and lab codes	→	<b>UB-92</b>
NDC #, pharmacy revenue code	→	<b>UCF or UB-92</b>
Ambulance, Immunizations, DME/DMS codes	→	<b>UB-92</b>
ADA/CDT Dental codes	→	<b>ADA</b>

7

Proprietary 2002

"Procedure Coding and System Automation"

Version 2.0

Standard Technology, Inc., Falls Church, VA.

- TPOCS is able to determine this by the individual CPT-4 codes:
  - TPOCS contains a mapping which determines on which form to place the code based on the range the CPT-4/HCPCS code is in. The examples are not all inclusive:
    - When TPOCS reads a code in the E&M series, it automatically will put it on the CMS-1500 Claim Form.
    - When TPOCS reads a code in the 70000 radiology series with a 26 modifier, it automatically will put it on the CMS-1500 Claim Form.
    - When TPOCS reads a code in the 70000 radiology series with a TC modifier, it automatically will put it on the UB-92 Claim Form.
    - When TPOCS reads a code in the 80000 path and lab series, it automatically will put it on the UB-92 Claim Form.
    - When TPOCS reads an NDC number, it will automatically put it on the UCF.
      - **Note: Pharmacy charges can also be produced on the UB-92 if requested by the payer.**
    - When TPOCS reads Ambulance, Immunizations and DME/DMS services, it automatically put it on the UB-92 Claim Form.
  - This process is a default process:
    - If a particular payer wants all charges on the UB-92, then the biller has the ability to switch the claim form.
- Dental information is **manually entered on the ADA Claim Form by the biller.**

# Revenue Code Mapping

- Each CPT-4/HCPCS automatically maps to a default revenue code
  - Example:

40 REV. CD.	40 DESCRIPTION	44 HCPCS I/UNIT	45 DEPR. DATE	46 DEPR. UNIT	47 TOTAL CHARGES
610	MRT – General	70336			

- As previously stated when discussing revenue codes, they only apply to the UB-92 Claim Form.
- The biller does not have to manually enter the revenue code to finalize the bill.
- TPOCS contains a mapping that will automatically default to a revenue code based on the CPT-4/HCPCS code:
  - For example, with the code 70336, MRI jaw joint, revenue code 610, MRT-General will appear.
  - All CPT-4/HCPCS codes will be mapped to one of five primary revenue codes.
  - The biller will have the ability to change this revenue code to one of the other four or enter a new code in the blank column.

**Note to Trainer:** Have class refer to the Revenue Code to CPT Code Mapping example attached at the end of this presentation.

# How To Calculate Charges

- Revenue codes do not generate a charge
- CPT-4/HCPCS codes generate charges automatically from rate tables

40 REV. CD.	40 DESCRIPTION	44 HCPCS-UNITED	44 REV. RATE	44 REV. UNIT	44 TOTAL CHARGE
420	Treatments Physical Therapy	97032	10012001	1	20 82
420	Treatments Physical Therapy	97110	10012001	1	27 60
001	Total			2	\$48 42

9

# Rate Tables

- **CHAMPUS Maximum Allowable Charge (CMAC)**
  - Component
  - Non-CMAC
- **Anesthesia**
- **DME/DMS**
- **Pharmacy**
- **Dental**
- **Ambulance**
- **Immunizations/Injections**

Proprietary 2002

"Procedure Coding and System Automation"

Version 2.0

Standard Technology, Inc., Falls Church, VA.

10

- The systems (both CHCS and TPOCS) will contain the following rate tables:
  - **CMAC**
  - **Non-CMAC**
  - **Component**
  - **Anesthesia**
  - **DME/DMS**
  - **Pharmacy**
  - **Dental**
  - **Ambulance**
  - **Immunizations/Injections**
- All rate tables will be **updated yearly**.
- If you do multi-site billing then your system will be loaded with all the rates tables that you will need to bill for each MTF.
- The system will automatically choose the correct rate based on the treating MTF DMIS ID.

# CMAC Rate Tables

- **CMAC is organized by 90 distinct ‘localities’**
- **CMAC Localities correspond to zip codes which are mapped to treating facility DMIS ID codes.**
- **Three different tables within CMAC that contain rates for corresponding CPT-4 and HCPCS codes**
  - CMAC Rate Table
  - Component Rate Table
  - Non-CMAC Rate Table

- In order to obtain CMAC pricing for a CPT-4 or HCPCS Level I, II or III code, a locality code is essential:
  - There are currently 90 different locality codes
    - Localities account for differences in geographic regions based on demographics, cost of living and population (e.g., New York City vs. a city in Iowa).
  - Each facility DMIS ID will map to a specific locality code.
- For each locality code, there are three rate tables:
  - **CMAC Rate Table:** This rate table has the majority of codes.
  - **Component Rate Table:** This rate table contains the rates for codes which are broken down into professional (modifier -26) and technical (modifier -TC) components.
    - When these modifiers (-26 and -TC) are used, the system will select the rate from this table.
  - **Non-CMAC Rate Table:** This table contains the rates for the procedures which are normally priced on a statewide basis (prevailing fees).
- The CMAC rate tables contain the rates for rad, lab, clinic procedures/services and E&M codes.

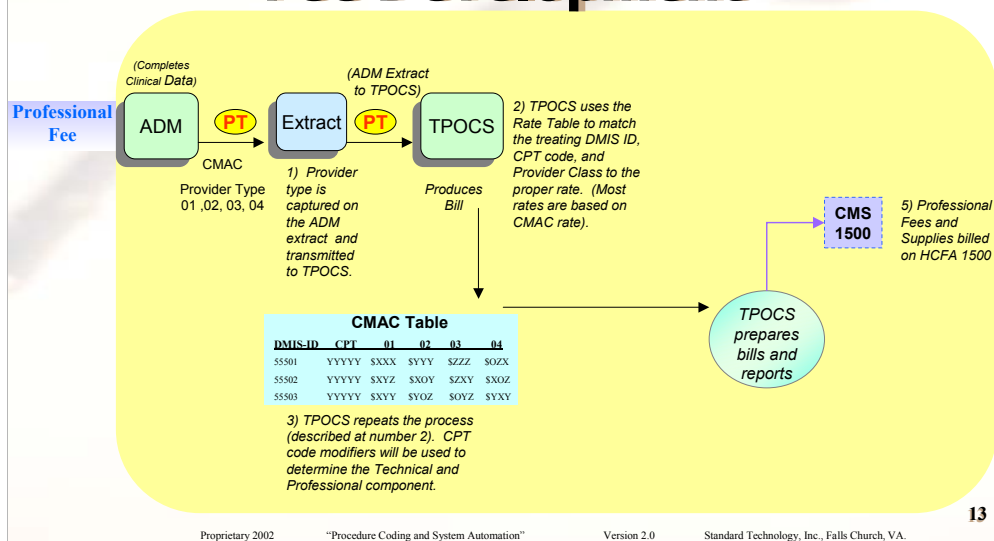

# CMAC Provider Class

- **Rates are based on a CMAC Provider Class:**
  - **Class 01: Physician Class** - Medical Doctors (MDs) and Doctors of Osteopathy (DOs)
  - **Class 02: Psychologist Class** - PhDs and Psychologists
  - **Class 03:** Other Mental Health Providers
  - **Class 04:** Extra Medical Providers (non-mental health only)

- Each CHCS provider type has been mapped to a CMAC provider class based on medical specialty in CHCS for billing purposes.
- These CHCS provider types will also be aligned with the HIPAA Taxonomy.
- The HIPAA Taxonomy assigns every class of provider to a specific code so that they can be readily identified by the payer. This is essential, especially for electronic billing.
- DoD is scheduled to be HIPAA compliant by FY03.

**Note to Trainer:** Have class refer to the HIPAA Taxonomy to CMAC Provider Class Mapping attached at the end of this presentation.

# Details on TPC Outpatient Itemized Billing Methodology: Fee Development

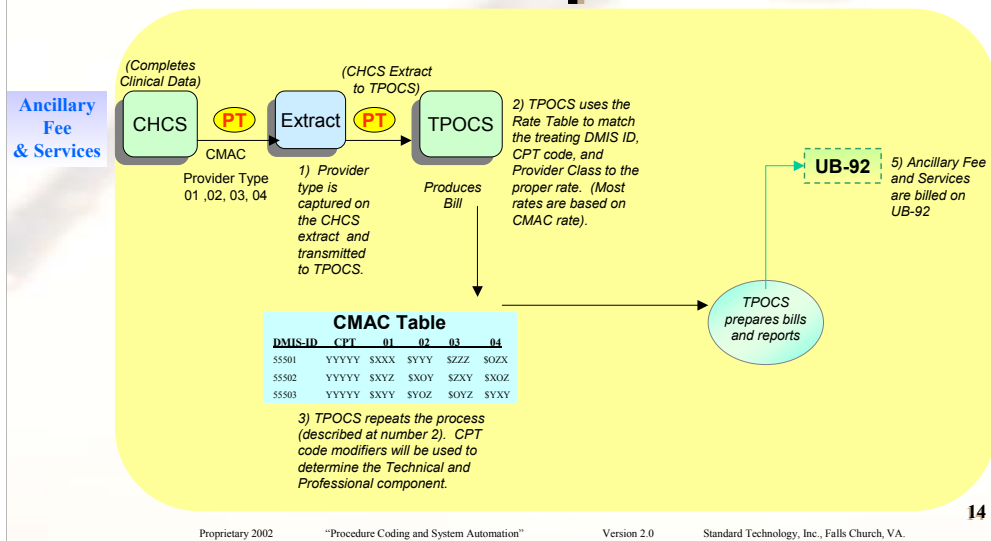

13

## •Details of Professional Fee development:

- Clinical data entered in ADM
- Provider Class attached in ADM Extract and sent to TPOCS
- TPOCS matches rate to CMAC Rate Tables (if no rate can be determined then do not bill for service)
- TPOCS prepares bill and prints it on appropriate claim form

# Details on TPC Outpatient Itemized Billing Methodology: Fee Development

14

## •Details of Ancillary Fee development:

- Clinical data entered in CHCS
- CHCS Extract sent to TPOCS
- TPOCS matches rate to CMAC Rate Tables (if no rate can be determined then do not bill for service)
- TPOCS prepares bill and prints it on appropriate claim form

# Anesthesia Rate Table

- **Automatically calculates charges for Anesthesia services based on:**
  - CPT-4 Codes 00100-01999
- **Flat Rate for this range of codes**

# DME/DMS Rate Table

- **Automatically calculates charges for Durable Medical Equipment/Durable Medical Supplies based on:**
  - HCPCS Level II “A, E, K, L, and V” codes
    - A4214 - A7509
    - E0100 - E2101
    - K0001 - K0551
    - L0100 - L8670
    - V2020 - V2780

- A codes: Medical and Surgery Supplies
- E codes: Durable Medical Equipment
- K codes: Temporary Codes Assigned to Durable Medical Equipment
- L codes: Prosthetic/Orthotic Procedures
- V codes: Vision Services

# Pharmacy Rate Table

- **Prescription costs are automatically calculated based on:**
  - National Drug Code (NDC)
  - Order Quantity
- **Billing extended to include internally ordered prescriptions**

Proprietary 2002

“Procedure Coding and System Automation”

Version 2.0

Standard Technology, Inc., Falls Church, VA.

17

- Rates are based on the NDC number.
- Pharmacy rates are updated quarterly.
- **NDC:** Each drug product listed under Section 510 of the Federal Food, Drug and Cosmetic Act is assigned a unique 10-digit, 3-segment number.
  - Identifies the labeler/vendor, product and trade package size
    - The first segment, **labeler** code, is FDA assigned. A labeler is any firm that manufactures, repacks or distributes a drug product.
    - The second segment, **product** code, identifies a specific strength, dosage form and formulation for a particular firm.
    - The third segment, package code, identifies **package sizes**.
      - Both the product and package codes are assigned by the firm.
- If the pharmacy table does not contain a rate for a particular drug, it cannot be billed.
- Order Quantity is based on MTF Pharmacy file.
- A Dispensing Fee will be automatically added to the pharmacy bill.

# Dental Rate Table

- **There is no change in methodology**
  - D0110 - D9440

- Billed on the ADA Claim Form.
- Updated yearly
- **D codes:** Dental procedures which can be:
  - Diagnostic
  - Restorative
  - Periodontics
  - Maxillofacial prosthetics
  - Prosthodontics (fixed)
  - Oral and maxillofacial surgery
  - Adjunctive general services

# Ambulance Rate Table

- **Automatically calculates charges for ambulance services based on:**
  - Default HCPCS Level II code A0999
  - 15-minute increment charge

- Ambulance encounters will be extracted from CHCS.
- The biller will have to enter the time increment in order for TPOCS to calculate the appropriate charge.

# Immunizations/Injections Rate Table

- **Automatically calculates charges for therapeutic medications (injections) administered as part of clinic encounter indicated by:**
  - HCPCS Level II “J” codes
  - CPT-4 codes 90476-90799 (Administration)

Proprietary 2002

“Procedure Coding and System Automation”

Version 2.0

Standard Technology, Inc., Falls Church, VA.

20

- **J codes:** Drugs administered other than by mouth. (J0000-J8999)
- **CPT-4 codes 90476-90799**
  - Vaccines
  - Toxoids
  - Therapeutic or Diagnostic

# Missing Rates

- **All HCPCS Level I, II and III codes must have an associated rate to be billed to the insurance carrier, otherwise, the code cannot be billed!**

# Key Points

- **There will be a daily data feed into TPOCS**
- **There will be no capability of manual entry of SIT/OHI information into TPOCS**
- **TPOCS contains a CPT to revenue code mapping that will ease the work of the biller in choosing revenue codes for each line item**
  - TPOCS will default a revenue code for each CPT that comes across; the biller will be able to choose up to 4 other listed revenue codes from a drop down box in addition to typing in a revenue code of the biller's choice

## Coding & System Automation Review Crossword Puzzle

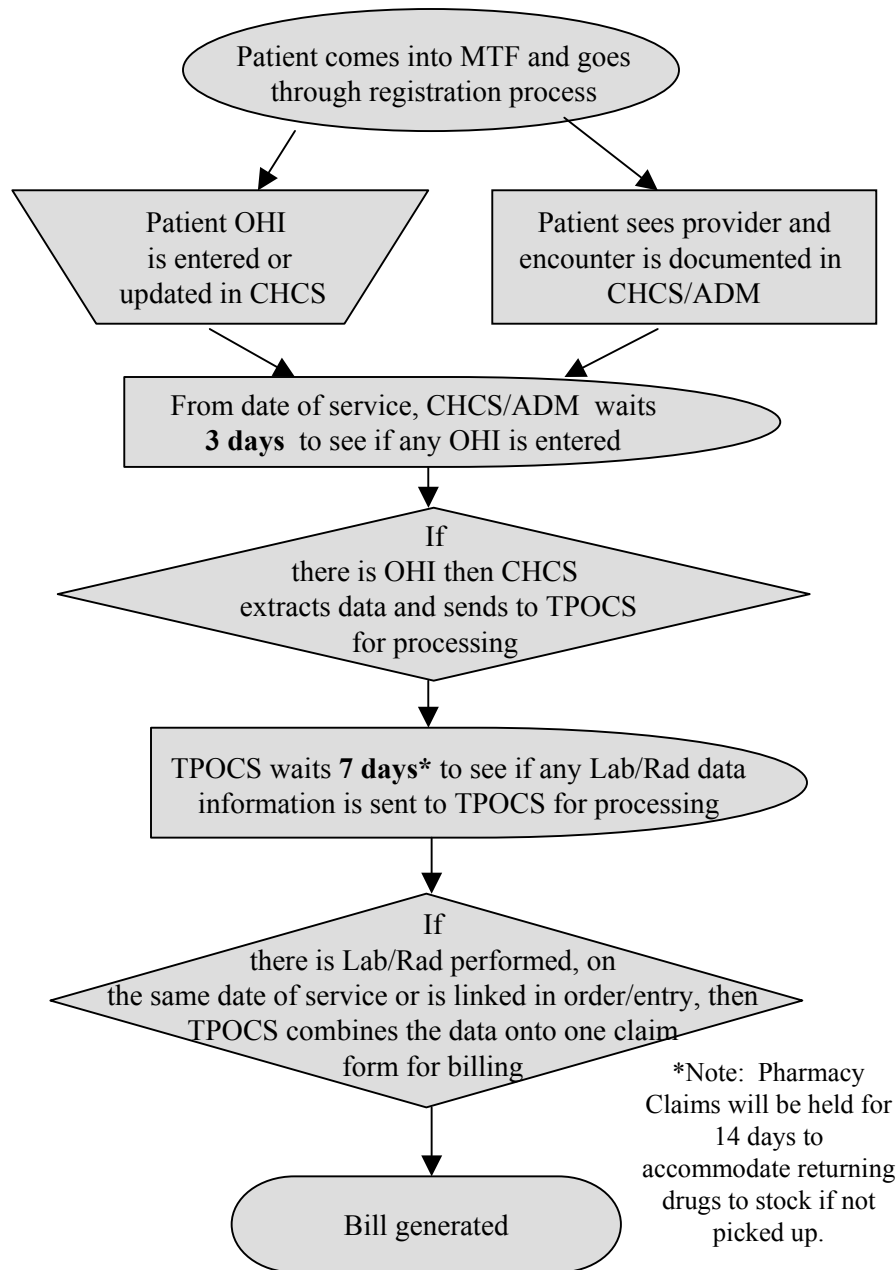

**NOTE TO TRAINER:** Have participants do Crossword Puzzle and check.

Have participants refer to the following handouts and discuss:

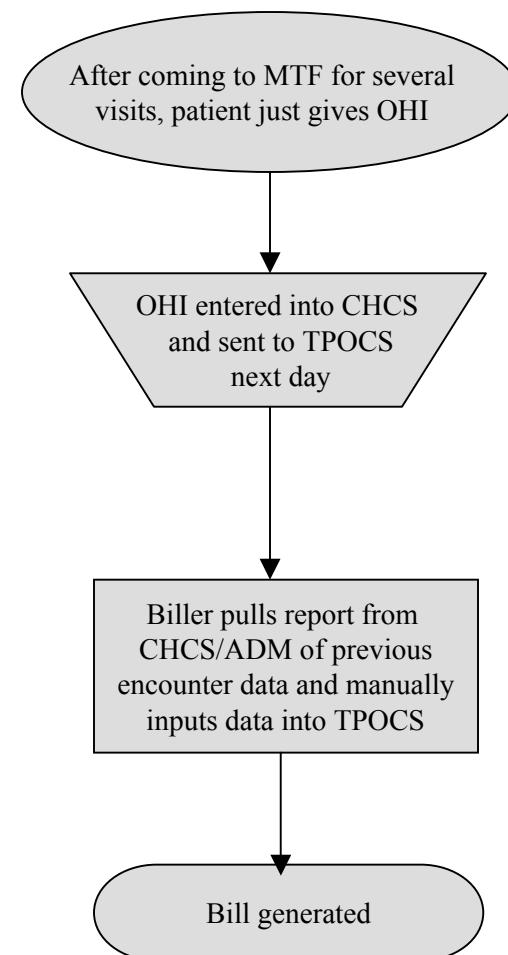

- **"Automated Claims vs. Manual Claims"**
- **"Outpatient Itemized Billing System Hold Periods"**
- **"Rate Tables and Claim Form Selection"**

# Automated Claims

# Manual Claims

# HIPAA Taxonomy to CMAC Provider Class Mapping

# Coding & System Automation Review Crossword Puzzle

# Coding & System Automation Review Crossword Puzzle

## **Across**

2. Each CPT-4/HCPCS code is automatically \_\_\_\_\_ to a default revenue code.
5. Pharmacy rates are based on \_\_\_\_\_ numbers.
9. CPT-4 codes 00100-01999 are used for \_\_\_\_\_.
10. CMAC means CHAMPUS \_\_\_\_\_ ALLOWABLE CHARGE.
12. CPT-4 is a five-digit \_\_\_\_\_ code.
13. CMAC is organized by 90 different \_\_\_\_\_.
15. In addition to the CPT-4/HCPCS code, the CMAC rate is based on a \_\_\_\_\_ class.
16. CPT-4/HCPCS codes produce charges automatically from \_\_\_\_\_ tables.
17. Unlisted codes in \_\_\_\_\_ cannot be billed.
18. The anesthesia codes are based on a \_\_\_\_\_ rate.
19. Level III HCPCS are \_\_\_\_\_ codes.

## **Down**

1. Level I \_\_\_\_\_ are also CPT-4 codes.
3. The rate table for \_\_\_\_\_ is the ADT/CDT table.
4. This system will only have rates for its MTF.
6. The \_\_\_\_\_ rate table contains the rates for codes, which are broken down into Prof. and Tech. components.
7. Level II HCPCS are \_\_\_\_\_ codes.
8. Although claim form selection is a default process, the \_\_\_\_\_ has the ability to switch the claim.
11. \_\_\_\_\_ codes identifies a specific accommodation or ancillary charge on the UB-92 claim form.
14. Encounter data will be extracted from CHCS/ADM to \_\_\_\_\_.
15. Prescription costs are found on the NDC \_\_\_\_\_ rate table.
18. Ambulance charges are reimbursed at a flat rate in increments of \_\_\_\_\_ minutes.

Uniform Business Office  
Outpatient Itemized Billing Training Course

# Evaluation & Management (E/M)

Proprietary 2002

"Evaluation and Management"

Version 2.0

Standard Technology, Inc., Falls Church, VA

# Objectives

- Review elements contained in the E/M services
- Review 7 components of E/M services
- Review Ambulatory Data Module (ADM) Coding Guidelines

- This is an overview presentation of E/M and not a "How to code E/M" presentation.
- Selecting E/M codes is usually a function performed by a coder/provider.
- The billers will submit claims for the reimbursement of E/M services.
- E/M codes are structured to reimburse facilities for specific levels of care.
- Key components and supporting documentation are required to obtain specific levels of care.
- Currently, the May 1, 2000 ADM Coding Guidelines are used (formerly ADS/KG-ADS) **(THERE IS AN UPDATE IN PROGRESS)**

**Note to Trainer:** Have class refer to the Evaluation and Management Audit Sheet handout attached at the end of this presentation.

# Elements of E/M Levels

- **Place of service**
- **Type of service**
- **Status of the medical visit**

Proprietary 2002

"Evaluation and Management"

Version 2.0

Standard Technology, Inc., Falls Church, VA

- E/M codes are found in the CPT-4 (Current Procedural Terminology) book and are also known as HCPCS (Healthcare Common Procedure Coding System) Level I codes.
- When selecting the appropriate E/M level, you must consider where the services were provided. Examples of locations can include:
  - clinics
  - hospitals
  - emergency room departments
- The type of service depends on the patient's illness or injury. Examples of types of service can include:
  - consultations
  - critical care
- The status of the medical visit refers to whether the patient is new or established.
- **A new patient is a patient:**
  - Who presents to a specific service/clinic at that facility for the first time; or
  - Who presents to a specific service/clinic at that facility for the first time in three years; and
  - Whose encounter meets the requirements of a visit.

**Example:** A patient is seen in the Dermatology Clinic with red, itchy patches due to contact with poison ivy on the wrists and ankles. This is the patient's first encounter with this clinic for care, so he or she would be categorized as a new patient.
- **An established patient is a patient:**
  - Who was seen in a specific ambulatory service/clinic at that facility in the last three years; and
  - Has received care from a privileged provider in a practice of one, or from any privileged provider in a group of providers of the same specialty; and
  - Whose encounter meets the requirements of a visit.
- **All of these elements contribute to selecting the proper E/M codes.**

# 7 Components of E/M

- History
- Physical Examination
- Medical Decision Making
- Nature of Presenting Illness
- Counseling
- Coordination of Care
- Time

Proprietary 2002

"Evaluation and Management"

Version 2.0

Standard Technology, Inc., Falls Church, VA

4

- Components define levels of E/M.
- Although all seven Components may be used when selecting the appropriate E/M level, 3 key components that must be met:
  - History
  - Physical Examination and
  - Medical Decision Making
- The remaining E/M components are contributory and may or may not be met.

# 3 Key Components

- **History**
  - Chief Complaint (CC)
  - History of Present Illness (HPI)
  - Review of Systems (ROS)
  - Past Medical, Family Medical History, Social History (PFSH)
- **Examination**
  - Body Areas
  - Organ Systems
- **Medical Decision Making**

Proprietary 2002

"Evaluation and Management"

Version 2.0

Standard Technology, Inc., Falls Church, VA

5

- If the patient is a new patient, All 3 Key Components must be met.
- When taking a **history** the provider must ask:
  - Chief complaint
  - History of the present illness, including the duration, location, severity, etc
  - Review of systems, including asking questions about weight loss, sinus problems, nausea, etc
  - Past medical, family medical and social history, including information such as past head trauma, marital status, history of family members having headaches, alcohol consumption, etc
- When performing a **physical examination** the provider must review:
  - Body areas, which include head, chest, neck, abdomen, back, genitalia and extremities
  - Organ systems, which include eyes, ears, nose, throat, cardiovascular, respiratory, neurological, etc
- When establishing a level of **medical decision making**:
  - The level is based on the complexity of establishing a diagnosis or selecting the appropriate management option. The four levels are straightforward, low complexity, moderate complexity, or high complexity.  
**Example:** If a patient is diagnosed with a sore throat, the medical decision making would be straightforward. If the same patient had a sore throat, fever and weight loss, then the medical decision making may be moderate, because the provider would have to determine the cause of the sore throat, fever and weight loss.
- With an established patient, two of three components must be met:
  - The physician may or may not complete one of the key components.  
**Example:** The provider may only perform a physical examination and establish a level of medical decision making.
- The E/M levels will vary depending on the overall complexity of the patient encounter.

## 4 Contributory Components

- **Nature of Presenting Illness**
- **Counseling**
- **Coordination of Care**
- **Time**

Proprietary 2002 "Evaluation and Management"

Version 2.0

Standard Technology, Inc., Falls Church, VA

6

- Contributory components enhances the E/M level by presenting more detail and complexity to the decision making.
- Providing more detailed documentation will justify increasing the level of E/M resulting in greater reimbursement.
- **Nature of presenting illness** is:
  - Disease, condition, illness, injury, symptom, sign, finding, complaint or other reason for encounter, with or without a diagnosis being established at the time of the encounter
  - Example:** A female patient has chronic back pain and has never had any type of trauma or condition, that would explain her back pain. The pain usually starts in the middle of her back and radiates to her left side.
  - 5 types of nature of presenting illness:
    - Minimal, self-limited/minor, low severity, moderate severity and high severity. The previous example would constitute a self-limited or minor nature of presenting illness.
    - More specific information can be found in the current edition of the Current Procedural Terminology – 4th Edition book.
- **Counseling and coordination** of care may not be provided at every patient encounter. The complexity of the encounter is the most decisive factor in selecting the E/M level.
- If the key components have been met and the Counseling and Coordination of care takes up more than 50% of the total encounter time and the actual time is documented then **Time** becomes a factor in selecting the most appropriate level of E/M service:
  - Examples of Encounters:
    - Physician/patient and/or family encounter
    - Face to face in the office or outpatient setting

# ADM Coding Guidelines

- **Telephone Calls**
  - Privileged-99371, 99372, 99373
  - Non-Privileged-99499
- **Prolonged Services**
  - w/contact-99354-99357
  - w/o contact-99358

Proprietary 2002

"Evaluation and Management"

Version 2.0

Standard Technology, Inc., Falls Church, VA

7

- These are a few services that are contained in the ADM Coding Guidelines. These services are telephone calls and prolonged services.
- Privileged providers may choose a telephone call code 99371, 99372 or 99373.
- Non-privileged providers engaged in telephone encounters with patients may document their services using E/M code 99499, when applicable.
- The code range 99354-99357 should be used when patients require an unusual amount of face-to-face, privileged provider time.
- Prolonged services must be clearly documented in the patient record along with the amount of time that the service was provided.
- Under these circumstances, the prolonged service code will be used in conjunction with other E/M codes.
- At this time, only one E/M can be entered in CHCS.
- The code 99358 will be used to collect data regarding time spent not in the patient's presence, before or after direct (face to face) services.

## **Note to Trainer:** What is the difference between a privileged and non-privileged provider?

- A **privileged provider** is essentially an independent practitioner who is granted permission to provide medical, dental and other patient care in the granting facility within defined limits, based on the individual's education, professional license, experience, competence, ability, health and judgment. **Non-privileged providers** are normally restricted to using E/M code 99211 to document face-to-face encounters in ADM.

# ADM Coding Guidelines

## WHAT IS THE DIFFERENCE BETWEEN A CONSULTATION AND A REFERRAL?

Proprietary 2002

"Evaluation and Management"

Version 2.0

Standard Technology, Inc., Falls Church, VA

8

- A **consultation** occurs when a physician provides an opinion or advice regarding a certain patient at the request of a privileged provider. Consultations are “**evaluate and return**” whereby the patient remains in the care of the provider requesting the consultation. Consultations are frequently confused referrals.
  - A consultation may be more than one visit. A consultation continues until a definitive diagnosis is made and treatment begins.
  - The AMA and CMS use the following criteria to define a consultation:
    - The consultation is **requested by another privileged provider or source** such as third party payer.
    - The consultant **renders an opinion or advice**.
    - The consultant **initiates diagnostic or therapeutic services**.
    - The requesting provider has **documented** the request and the need for the consultation in the **patient record**.
    - The consultant’s opinion, advice and any services rendered are documented in the patient record and communicated to the requesting provider or source, generally in the form of a written report in accordance with Joint Commission on Accreditation of Healthcare Organizations (JCAHO) standards.
- A **referral** is when a physician transfers control of the patient’s care to a second physician in another specialty. Referrals are “**evaluate and treat**.” Referrals are coded using E/M codes for office visits as the new provider assumes full control of the patient.

# KEY POINTS

- **3 key components of Evaluation and Management: history, examination, and medical decision making**
- **New vs. established patient: all 3 key components must be met with a new patient, while two of three components must be met for an established patient.**
- **E&M levels are data points to review with the coder in the event of a denied claim.**

Proprietary 2002

“Evaluation and Management”

Version 2.0

Standard Technology, Inc., Falls Church, VA

9

- It is important to remember that with outpatient itemized billing, the entire coding process will become more complex.
- Providers will code encounters at a more complex level than required in the past.
  - More than one E/M is possible
  - There can be numerous diagnosis and procedure codes
  - There will be two or more claim forms produced for each encounter

- You may reference the ADM Coding Guidelines and the UBO website at [www.tricare.osd.mil](http://www.tricare.osd.mil).
- Are there any questions?

# Use of Modifiers

1

Proprietary 2002

"Use of Modifiers"

Version 1.0

Standard Technology, Inc., Falls Church, VA

# Objectives

- **Define modifiers**
- **Explain why modifiers are used**
- **Demonstrate how modifiers are used**
- **Explain how modifiers affect reimbursement**
- **Identify additional provider modifiers**

- This presentation on Modifiers is a broad overview on:
  - **What** they are
  - **Why** use them
  - **How** to use them
  - **How they apply** to Outpatient Itemized Billing
- **Note:** Keep in mind that these codes will appear automatically on the itemized claim. Therefore, no manual intervention is required.

• **Note to Trainer:** Have class refer to the CPT-4/HCPCS to Modifier mapping example attached at the end of this presentation.

# What Are Modifiers?

- Two-digit adjectives
- Additional information that is not part of the CPT-4/HCPCS code description
- Numeric, alpha-numeric, or alpha

# Why Use Modifiers?

- **Improves reimbursement**
- **Reduces audit exposure**
- **Maintains coding compliance**

Proprietary 2002

"Use of Modifiers"

Version 2.0

Standard Technology, Inc., Falls Church, VA

4

- There are several reasons to use modifiers. When applicable, modifiers:
  - **Improves reimbursement**
    - Without the use of modifiers indicating multiple procedures, CPT-4/HCPCS can only be reported once.
    - The payer will assume it is a duplicate charge and will decrease reimbursement.
  - **Reduces audit exposure**
    - Without the use of a modifier, the payer may see a pattern of duplicate charges and may begin auditing the MTF.
  - **Maintains coding compliance**
    - The use of modifiers provides more detail about services rendered.

# How Modifiers Affect Reimbursement

## CMAC Rate Table

XXXXX-(modifier)

Local Code	Procedure	Class Nbr	Rate	Effective Date
------------	-----------	-----------	------	----------------

- Modifiers will be used to pull rates from the CHAMPUS Maximum Allowable Charge (CMAC) Table.
- The CMAC tables are located in both CHCS and TPOCS.
- The system (either CHCS or TPOCS) will read the CPT-4/HCPCS code and point to the CMAC table to obtain the rate (regardless of what the modifier is, **in most cases**).
- Modifiers are used to "clarify" the scope of services provided or the circumstances under which the services were provided and/or delivered.

# Modifiers that Affect Reimbursement

- **-26 Professional Component**
- **-TC Technical Component**
- **-50 Bilateral Procedure**
- **-51 Multiple Procedures**
- **-52 Reduced Services**
- **-62, 80, 81, 82 Additional Provider Modifiers**
- **-RR, -NU, Durable Medical Equipment/Supplies**

Proprietary 2002

"Use of Modifiers"

Version 2.0

Standard Technology, Inc., Falls Church, VA

6

- These modifiers affect the reimbursement rate:
  - Modifier -52
    - Indicates that the physician elected to reduce or eliminate a portion of a service or procedure.
    - This modifier does not affect or change the rate that is put on the claim form.
    - It will be up to the payer to decide how much to reduce the payment.

# Professional and Technical Components

Component Rate Table

Procedure	Class Nbr	Professional Rate	Technical Rate	Effective Date
		XXXXXX-26	XXXXXX-TC	
		Physician Interpretation	X-Ray Technician	

Proprietary 2002

"Use of Modifiers"

Version 2.0

Standard Technology, Inc., Falls Church, VA

7

- CMAC utilizes several table formats. This slide depicts the component rate table which has rates for the technical and professional components of a CPT-4/HCPCS code.
- - 26 and -TC modifiers separate the professional and technical components of CPT-4/HCPCS codes, often used in the radiology and laboratory services.
  - For example, a patient may be sent to get an X-ray. The X-ray technician takes the X-ray and sends it back to the physician for the interpretation.
- The services of the X-ray technician would be coded with the CPT-4 code and the modifier –TC:
  - The system populates this modifier on the UB-92 Claim Form.
- The physician's interpretation of the X-ray would be coded with the same CPT-4 code as the X-ray technician but with the modifier -26 added.
  - The system populates this modifier on the CMS-1500 Claim Form.

# Bilateral Procedures

- **-50 Service or procedure being performed on both sides of the body**

Proprietary 2002

"Use of Modifiers"

Version 2.0

Standard Technology, Inc., Falls Church, VA

8

- Modifier -50 indicates that the procedure was performed twice on the same body site, both sides of the body during the same visit.
- The CPT-4 would be coded only once with modifier -50.
- The system will automatically double the charge.
- If one procedure is performed on the **left** and a different procedure (different CPT-4) is performed on the **right**:
  - The bilateral modifier **should not be used**.
  - Both CPT-4 codes **should be reported**.

# Bilateral Scenario

28292-50

Local Code	Procedure	Class Nbr	Rate	Effective Date
------------	-----------	-----------	------	----------------

\$628.58 x 2

UB-92 Form: FL 42-47

42 REV. CD.	43 DESCRIPTION	44 HCPCS / RATES	45 SERV. DATE	46 SERV. UNITS	47 TOTAL CHARGES
360	Operating Room Services - General	28292-50	07232001	1	\$1257 16
001	Totals			1	\$1257 16

9

Proprietary 2002

"Use of Modifiers"

Version 2.0

Standard Technology, Inc., Falls Church, VA

- For example, a patient presented to the clinic with chief complaint of pain in both feet. Patient was diagnosed with hammertoes in the great toe of both the left and right foot. Correction of the hammertoes was performed.
- The procedure was coded with CPT-4 code 28292.
- Modifier -50 is added to signify that the same procedure was performed at the same body site (opposite side of the body a second time (bilateral)).
- This is reported only as a **single** line item.
- The system will read modifier -50 and point to the CMAC rate table, pull the rate and automatically double it.
- In this example, the rate of \$628.58 was pulled and doubled.
- Note that in FL 46, the service units is listed as "1" since the modifier -50 designates a bilateral procedure.

# Multiple Procedures

- **-51 More than one service or procedure on the same day at the same session. (e.g., hammertoes, warts, etc.)**

- The use of the modifier -51 indicates a procedure performed more than once during the same visit to multiple body sites and/or different procedures on the same body site.

# Multiple Procedure Scenario

67312

67911 -51

Local Code	Procedure	Class Nbr	Rate	Effective Date
------------	-----------	-----------	------	----------------

UB-92 Form: FL 42-47

\$650.99 x 1

\$499.95 x 1

42 REV. CD	43 DESCRIPTION	44 HCPCS / RATES	45 SERV. DATE	46 SERV. UNITS	47 TOTAL CHARGES
360	Operating Room Services - General	67312	07232001	1	\$650.99
360	Operating Room Services - General	67911-51	07232001	1	\$499.95
001	Totals			2	\$1150.94

11

Proprietary 2002

"Use of Modifiers"

Version 2.0

Standard Technology, Inc., Falls Church, VA

- For example, the ophthalmologist repairs two horizontal muscles for Alternating Esotropia (378.05), and a Lid Retraction Repair (374.41) in an outpatient setting. The billing would be submitted as follows:
  - The first line item was coded with **67312** (Strabismus surgery, recession or resection procedure, two horizontal muscles)
  - The second line item was coded with **67911 -51** (Correction of lid retraction, -Multiple Procedure)
  - The system will automatically find the rate and apply it to the claim form appropriately.

# Additional Provider Modifiers

- **-62 Two surgeons**
- **-80 Assistant surgeon**
- **-81 Minimum assistant surgeon**
- **-82 Assistant surgeon (when qualified resident surgeon not available)**

- Use of these modifiers will trigger the system to generate additional claim form(s).
- If a second provider is listed in ADM, an additional claim form will generated.
- These modifiers should only be coded once. If TPOCS reads the same modifier on the same CPT-4, it will be considered a duplicate and will not be billed.

# Durable Medical Equipment/Supplies

- **-RR Rented Equipment**
- **-NU New Equipment**

13

Proprietary 2002

"Use of Modifiers"

Version 2.0

Standard Technology, Inc., Falls Church, VA

- DME/DMS is equipment or supplies that can withstand repeated use
  - Is primarily used to serve a medical purpose
  - Is not generally useful to a person in the absence of an illness or injury
  - Is appropriate for use in the home
  - Examples of durable medical equipment include:
    - Hospital beds
    - Wheelchairs
    - Oxygen tanks
  - Examples of durable medical supplies include:
    - Neck braces
    - Ace bandages
    - Crutch supports
- DME/DMS services will be accompanied by modifiers when applicable. The two most common modifiers are:
  - -RR for rented equipment
  - -NU for new equipment

# Anesthesia Modifiers

- **-AA Anesthesia service performed personally by anesthesiologist**
- **-QX CRNA service with medical direction by a physician**
- **-QY Medical direction of one CRNA by an anesthesiologist**
- **-QZ CRNA service without medical direction by a physician**

Proprietary 2002

"Use of Modifiers"

Version 2.0

Standard Technology, Inc., Falls Church, VA

14

- The use of these modifiers indicate that an anesthesiology professional performed services.
- These services will automatically trigger the system to put the anesthesia services on the CMS-1500 Claim Form.
- The provider that is listed in the second position in ADM will be listed on the claim form as the provider of services.
- Without the use of these modifiers, the system will automatically put the anesthesia services on the CMS-1500 Claim Form but will list the primary provider as the provider of service. (The anesthesiologist/CRNA will not be paid even if they were listed in the second provider position in ADM.)

– **CRNA:** Certified Registered Nurse Anesthetist

# Multiple Modifiers for a Single CPT-4/HCPCS

28285-(modifier)

Local Code	Procedure	Class Nbr	Rate	Effective Date
------------	-----------	-----------	------	----------------

UB-92 Form: FL 42-47

42 REV. CD	43 DESCRIPTION	44 HCPCS / RATES	45 SERV. DATE	46 SERV. UNITS	47 TOTAL CHARGES	
360	Operating Room Services - General	28285-TA	07232001	1	\$ 682	91
360	Operating Room Services - General	28285-T5	07232001	1	\$ 682	91
360	Operating Room Services - General	28285-T1	07232001	1	\$ 682	91
001	Totals			3	\$ 2048	43

Proprietary 2002

"Use of Modifiers"

Version 2.0

Standard Technology, Inc., Falls Church, VA

15

- The same CPT-4/HCPCS code may be coded more than once if different modifiers are used.
- For example, a patient presented to the clinic with chief complaint of pain in both feet. Patient was diagnosed with hammertoes in the great toe of both the right and left foot; in addition, the left foot, second digit. Correction of the hammertoes was performed.
- The procedure was coded with 28285 and to represent the different body sites, the following modifiers were used:
  - -TA Left Foot, Great Toe
  - -T5 Right Foot, Great Toe
  - -T1 Left Foot, Second Digit
- The modifiers indicate that the procedures were not duplicate; therefore, the rates are filled in on the claim form.

# Required Documentation (Payer)

- **There are specific modifiers that require additional documentation be sent with the claim to justify their usage**
  - -22 Unusual services
  - -53 Discontinued procedure

- Billers will need to be familiar with those modifiers requiring documentation to be submitted with the claim.
- Documentation must be specific, not general.
- Payers may increase reimbursement with this justification.

- **-22 Unusual Circumstances:**

- Due to circumstances, the procedure was lengthy, unusual and/or work was increased by approximately 25-50% of what would normally be required.

- **-53 Discontinued Procedure:**

- When the well-being of a patient is threatened, the physician may elect to terminate a surgical or diagnostic procedure.
- The procedure was started but not finished.
- This modifier informs the payer about the procedure termination and allows for reimbursement up to the point when service was terminated.
- This modifier does not indicate cancellation of services prior to the start of a procedure.

# Required Documentation (Medical Record)

- **These modifiers require additional documentation in the medical record only**
  - -25 significant, separately identifiable evaluation and management service by the same physician on the same day of the procedure or other service
  - -27 multiple outpatient hospital evaluation and management encounters on the same date

Proprietary 2002

"Use of Modifiers"

Version 2.0

Standard Technology, Inc., Falls Church, VA

17

- Both modifiers are for informational purposes.
- They do affect the reimbursement because with their usage, payers may not reject multiple E/M codes reported for the same date of service.
- Both modifiers are used for code ranges 92002-92014, 99201-99499 and G0101-G0175:
  - **-25** as an example, the patient went in for a physical and also had respiratory complaints
    - The physician noted some abnormalities in the breathing and evaluated the problem.
    - In this situation, the same physician would need to perform another exam beyond the physical and code an additional E/M.
  - **-27** this modifier is used to indicate that the patient went to separate and distinct visits within the same day (e.g., present to ER and sent to OB)
    - This means that the patient was examined by more than one physician.

# Key Points

- **Billers may see duplicate CPT-4 codes listed on a claim form: each code must have a different modifier or may be considered duplicate charges**
- **Multiple Modifiers will be available per CPT.**
- **Multiple E&M Codes will be available in future releases.**
- **Units of service can now be accounted for.**
- **Some modifiers substantiate care only and some effect reimbursement.**

Questions?

# CPT-4/HCPSC Codes to Modifiers Mapping

Code Set	Modifiers	Descriptor	Rate Calculation
<b>E/M</b> 99201-99499	-21	Prolonged evaluation and management services	Global rate
	-24	Unrelated evaluation and management service by the same physician during a postoperative period.	Global rate
	-25	Significant separately identifiable e/m services by the same physician on the same day of a procedure or other service	Global rate
	-27	Multiple outpatient E&M encounters on the same date	Global rate
	-32	Mandated services	Global rate
	-52	Reduced services	Global rate – it will be up to the payer to decide how much to reduce the payment.
	-57	Decision for surgery	Global rate
	-CC	Procedure code change	
<b>Anesthesia</b> 00100-01999	-22	Unusual services	Flat rate
	-23	Unusual anesthesia	Flat rate
	-32	Mandated services	Flat rate
	-47	Anesthesia by surgeon	Flat rate
	-51	Multiple procedures	Global rate
	-53	Discontinued procedure	Flat rate
	-59	Distinct procedural service	Flat rate
	-AA	Anesthesia service performed personally by anesthesiologist	Flat rate
	-AD	Medical supervision by a physician; more than four concurrent anesthesia procedures	Flat rate
	-AS	Physician assistant, nurse practitioner or clinical nurse specialist services for assistant-at-surgeon	Flat rate
	-CC	Procedure code change	
	-G8	Monitored anesthesia care (MAC) for deep complex, complicated, or markedly invasive surgical procedure	This modifier will not be used until the system is capable of calculating anesthesia by minutes of service.
	-G9	MAC for patient who has history of severe cardio-pulmonary condition	This modifier will not be used until the system is capable of calculating anesthesia by minutes of service.
	-P1	Normal healthy patient	This modifier will not be used until the system is capable of calculating anesthesia by minutes of service.
	-P2	Patient with mild systemic disease	This modifier will not be used until the system is capable of calculating anesthesia by minutes of service.

## CPT-4/HCPSC Codes to Modifiers Mapping

Code Set	Modifiers	Descriptor	Rate Calculation
	-P3	Patient with severe systemic disease	This modifier will not be used until the system is capable of calculating anesthesia by minutes of service.
	-P4	Patient with severe systemic disease that is a constant threat to life	This modifier will not be used until the system is capable of calculating anesthesia by minutes of service.
	-P5	Moribund patient who is not expected to survive without the operation	This modifier will not be used until the system is capable of calculating anesthesia by minutes of service.
	-P6	Declared brain-dead patient whose organs are being removed for donor purposes	This modifier will not be used until the system is capable of calculating anesthesia by minutes of service.
	-QK	Medical direction of 2, 3, or 4 concurrent anesthesia procedures involving qualified individuals	Flat rate
	-QS	Monitored anesthesia care	This modifier will not be used until the system is capable of calculating anesthesia by minutes of service.
	-QX	CRNA service with medical direction by a physician	Flat rate
	-QY	Medical direction of one certified registered nurse anesthetist (CRNA) by an anesthesiologist	Flat rate
	-QZ	CRNA service without medical direction by a physician	Flat rate
	-22	Unusual services	Global rate
<b>Surgery</b> 10040-69990	-26	Professional component	Rate is derived from the Professional Rate column of the Component Table
	-32	Mandated services	Global rate
	-47	Anesthesia by surgeon	Global rate
	-50	Bilateral procedure	Rate that is displayed on the form is 2x the CMAC rate. Units of service field is filled with "1".
	-51	Multiple procedures	Global rate

## CPT-4/HCPSC Codes to Modifiers Mapping

Code Set	Modifiers	Descriptor	Rate Calculation
	-52	Reduced services	Global rate – it will be up to the payer to decide how much to reduce the payment.
	-53	Discontinued procedure	This modifier will not be used at this time until system changes are made.
	-54	Surgical care only	Global rate
	-55	Postoperative care only	Global rate
	-56	Preoperative care only	Global rate
	-58	Staged or related procedure or service by the same physician during the postoperative period	Global rate
	-59	Distinct procedural service	Global rate
	-62	Two surgeons	Global rate
	-66	Surgical team	Global rate
	-76	Repeat procedure by the same physician	Global rate
	-77	Repeat procedure by another physician	Global rate
	-78	Return to the operating room for a related procedure during the postoperative period	Global rate
	-79	Unrelated procedure or service by the same physician during the postoperative period	Global rate
	-80	Assistant surgeon	Global rate
	-81	Minimum assistant surgeon	Global rate
	-82	Assistant surgeon (when qualified resident surgeon not available)	Global rate
	-90	Reference (outside) laboratory	Global rate
	-99	Multiple modifiers	Global rate
	-LT	Left side	Global rate
	-RT	Right side	Global rate
	-E1	Upper left, eyelid	Global rate
	-E2	Lower left, eyelid	Global rate
	-E3	Upper right, eyelid	Global rate
	-E4	Lower right, eyelid	Global rate
	-FA	Left hand, thumb	Global rate
	-F1	Left hand, second digit	Global rate
	-F2	Left hand, third digit	Global rate
	-F3	Left hand, fourth digit	Global rate
	-F4	Left hand, fifth digit	Global rate
	-F5	Right hand, thumb	Global rate
	-F6	Right hand, second digit	Global rate

Uniform Business Office  
Outpatient Itemized Billing Training Course

# CMS-1500 Claim Form

"CMS-1500"

Version 2.0

Standard Technology, Inc., Falls Church

- Welcome, this presentation deals with the **CMS-1500** Claim Form.
- Does anyone know what the **HCFA-1500** claim form is or has anyone used this form in the past?
  - The CMS-1500 is the same form; however, the only difference is its name change. The name will be physically changed on the form in the future
  - CMS stands for Centers for Medicare and Medicaid Services and HCFA changed to this name in June 2001

**Note to Trainer:** Have the class refer to the CMS-1500 Claim Form example and instructions attached at the end of this presentation.

# Objectives

- **Describe the functionality and purpose of using the CMS-1500**
- **Review the items that impact Outpatient Itemized Billing**

“CMS-1500”

Version 2.0

Standard Technology, Inc., Falls Church, VA

2

- **Professional Services:**

- Services that have a “professional” component in which the physician “reads” and interprets the result of a test performed by a technician
- The service will be designated by a CPT-4 code and modifier – 26 on the CMS-1500 Claim Form
- The technical component will be recorded on the UB-92 Claim Form with the modifier –TC

- **Evaluation & Management (E & M) Codes:**

- These codes will be itemized first, if applicable

- **Modifiers:**

- Are two-digit adjectives
- Give additional information that is not part of the CPT-4/HCPCS code description
- Can be numeric, alpha-numeric, or alpha (e.g. - 26 Professional Component)

# CMS-1500 Claim Form Sections

- Items 1-13:  
Patient and Insured Information

5

- The items on this slide are very essential for Outpatient Itemized Billing
  - Please refer to the CMS-1500 Instruction Sheet for more detailed information regarding claim form items
- We will discuss each item listed on the slide in more detail on the following slides

# Diagnosis

- **Item 21: Diagnosis or Nature of Illness or Injury**
- **Item 24E: Diagnosis Code**

21. DIAGNOSIS OR NATURE OF ILLNESS OR INJURY. (RELATE ITEMS 1,2,3 OR 4 TO ITEM 24E BY LINE)

1 **388. 70** 3 **482**

2 **380. 4** 4 **478. 1**

A				B		C		D		E	F		G	H	I	J	K
DATE(S) OF SERVICE				Place of Service		Type of Service		PROCEDURES, SERVICES, OR SUPPLIES		DIAGNOSIS CODE	CHARGES		DAYS OR UNITS	EPICOT Plan	RMS	COB	RESERVED FOR LOCAL USE
From MM	DD	YYYY	To MM	DD	YYYY	Service	Service	OPTICPCS	MODIFIER

"CMS-1500"

Version 2.0

Standard Technology, Inc., Falls Church, VA

6

- **Item 21:** The ICD-9-CM code for the patient's diagnosis/condition
  - The ICD-9-CM code must be coded to the highest specificity and ranked in order of priority
- **Item 24E:** The pointer number (1-4) from Item 21 that is applicable to that specific procedure, service or supply should appear

– **In the example on the slide:**

- **In line 1,** the diagnosis pointers indicate that the procedure (99212) performed are related to all of the diagnosis codes
- **In line 2,** the diagnosis pointer indicates that the procedure (69210) performed is related to the secondary diagnosis, 380.4 (impacted cerumen)

**Note:** There is a maximum of **six itemized lines of charges** that can be populated on the CMS-1500. Any additional itemized lines will be continued on new CMS-1500 Claim Forms.

# Procedures and Associated Charges

- **Item 24A: Dates of Service**
- **Item 24B: Place of Service**
- **Item 24D: Procedures, Services or Supplies**
- **Item 24F: Charges**
- **Item 24G: Days or Units**

24 A				B		C		D		E	F	G	H	I	J	K
DATES OF SERVICE				Place of Service		Type of Service		PROCEDURES, SERVICES, OR SUPPLIES (Explain Unusual Circumstances)		CHARGE CODE	CHARGES	DAYS OR UNITS	EPICIT	Family Plan	ENG	COB

"CMS-1500"

Version 2.0

Standard Technology, Inc., Falls Church, VA

7

- **Item 24A:** The eight-digit date (MMDDCCYY) of the time period in which the services were performed
- **Item 24B:** The code "26" which represents an MTF. This code should automatically print on all CMS-1500s. (TPOCS default) If a code other than "26" appears, a prompt will ask if this is the appropriate place of service code.
- **Item 24D:** The CPT-4/HCPCS code(s) for the procedures, services or supplies furnished to the patient will be populated here.
  - **Modifiers** should be coded by the coder/provider, if required
- **Item 24F:** The system will automatically produce the charge based on each listed service.
- **Item 24G:** The number of days or units that were supplied for that particular CPT/HCPCS code listed in that line will be populated here.
  - If only one service was provided, the number "1" should appear

**Note:** This particular section depicts the major change with outpatient itemized billing as opposed to all inclusive billing. Each procedure/service, date of service and charge is indicated on its specific detail line for itemized billing.

# Patient's Account Number

- Item 26: Patient's Account Number

- The current method in how the Patient's Account Number is created has not changed.
- The Patient's Account Number is assigned by the MTFs accounting system to identify the patient.
- There will be a Site specific prefix (based on DMIS ID) followed by a sequence number.
- All additional claims will be numbered in succession.

# Total Charges

- **Item 28: Total Charge**

28. TOTAL CHARGE		
\$	1450	52

- **Item 30: Balance Due**

30. BALANCE DUE		
\$	1450	52

“CMS-1500”

Version 2.0

Standard Technology, Inc., Falls Church, VA

9

- **Item 28:** The system will automatically produce the **Total Charge** based on the procedure code(s).
- **Item 30:** The system will automatically produce the **Balance Due** based on the procedure code(s).
  - This should match **Item 28**
- **In the cases where TPOCS is sending out a secondary bill** (i.e., primary insurance paid and the secondary insurance is billed the remainder), the amount paid field should be automatically filled in by the system
  - That amount will be deducted from the total
  - The line items will reflect the correct charges from the corresponding rate tables but the insurer can tell what was paid by the primary insurer

# Physician Information

- **Item 25: Federal Tax ID Number**
- **Item 31: Signature of Physician or Supplier**
- **Item 32: Name and Address of Facility Where Services Were Rendered**
- **Item 33: Physician, Supplier Billing Name, Address, Zip Code and Phone**

25. FEDERAL TAX ID NUMBER <b>12-3456789</b>		SSN EIN <input type="checkbox"/> <input checked="" type="checkbox"/>	
31. SIGNATURE OF PHYSICIAN OR SUPPLIER INCLUDING DEGREES OR CREDENTIALS (I certify that the statements on the reverse apply to this bill and are made a part thereof.)  <b>JOHN DOE, MD    10/01/2001</b>		32. NAME AND ADDRESS OF FACILITY WHERE SERVICES WERE RENDERED (if other than home or office)  <b>MTF 1234 Street Anywhere, US 00000 (804) 888-7777</b>	
SIGNED		DATE	
		33. PHYSICIAN'S SUPPLIER'S BILLING NAME, ADDRESS, ZIP CODE & PHONE #  <b>John Doe, MD</b>	
		PIN#      GRP#	

10

"CMS-1500"

Version 2.0

Standard Technology, Inc., Falls Church, VA

- **Item 25:** The Federal Tax ID number for the facility
- **Item 31:** The signature or stamp of the provider of service or supplier or his/her representative and the date the form was signed should be completed. This area can also be used to indicate the TPC Manager and that the bill has been reviewed.
- **Item 32:** The name, address and telephone number of the MTF
- **Item 33:** The name, address and phone number of the physician who rendered the services.
  - **Pin#:** (Currently, DoD does not use the PIN #)
  - **Group#:** (Currently, DoD does not use the Group #)

# Items that are Not Required for Outpatient Itemized Billing

- Item 10D
- Item 16
- Item 18
- Item 19
- Item 20
- Item 22
- Item 23
- Item 24H
- Item 24I
- Item 24J
- Item 24K

# CMS-1500 Claim Form Instructions

**Item 1:** Insured's I.D. Number, **Required**

*DoD Format Requirements:* Required

Enter the insured's social security number

**Item 2:** Patient's Name (Last Name, First Name, Middle Initial), **Required**

*DoD Format Requirements:* Required

Enter the insured's last name, first name, and middle initial

**Item 3:** Patient Birthdate, **Required**

*DoD Format Requirements:* Required

Enter the 8-digit birth date (MM | DD | CCYY) of the patient.

**Item 4:** Insured's Name (Last Name, First Name, Middle Initial), **Required**

*DoD Format Requirements:* Required

Enter the insured's last name, first name, and middle initial

**Item 5:** Patient's Address, **Required**

*DoD Format Requirements:* Required

Enter the mailing address and telephone number of the patient in the corresponding boxes.

**Item 6:** Patient Relationship to Insured, **Required**

*DoD Format Requirements:* Required

Check the appropriate box for the relationship of the patient listed in Item 2 to insured listed in Item 4.

**Item 7:** Insured's Address, **Required**

*DoD Format Requirements:* Required

Enter the mailing address and telephone number of the insured in the corresponding box.

**Item 8:** Patient Status, **Required**

*DoD Format Requirements:* Required

Check the appropriate box for the marital status and whether the patient is a full or part time student.

# CMS-1500 Claim Form Instructions

**Item 9:** Other Insured's Name, Required, if applicable

*DoD Format Requirements:* Required, if applicable

If the yes box is checked in Item 11D, then this section (Items 9 – 9D) must be filled out.  
Enter the name of the insured person (last, first, middle initial).

**Item 9A:** Other Insured's Policy or Group Number, Required, if applicable

*DoD Format Requirements:* Required, if applicable

Enter the other insured's insurance policy or group number.

**Item 9B:** Other Insured's Date of Birth / Sex, Required, if applicable

*DoD Format Requirements:* Required, if applicable

Enter the 8-digit date of birth (MM | DD | CCYY). Check the appropriate box indicating the sex of this person.

**Item 9C:** Employer's Name or School Name, Required, if applicable

*DoD Format Requirements:* Required, if applicable

Enter the employer's name or school name of the other insured person.

**Item 9D:** Insurance Plan Name or Program Name, Required, if applicable

*DoD Format Requirements:* Required, if applicable

Enter the name of the insurance plan or program related to the other insured person.

**Item 10:** Is Patient's Condition Related To: (Auto Accident/Other Accident), Required, if applicable

*DoD Format Requirements:* Required, if applicable

Check the appropriate box if the patient's condition is related to any of the following:  
employment (MAC), auto accident, or other accident.

**Item 10d:** Reserved For Local Use, Not Required

*DoD Format Requirements:* Not Required

Leave blank.

**Item 11:** Insured's Policy Group or FECA Number, Conditional

*DoD Format Requirements:* Required

Enter the insured's policy group or FECA number.

# CMS-1500 Claim Form Instructions

## **Item 11A:** Insured's Date of Birth / Sex, **Required**

*DoD Format Requirements:* Required

Enter the 8-digit date of birth (MM | DD | CCYY). Check the appropriate box indicating the sex of the insured.

## **Item 11B:** Employer's Name or School Name, Conditional

*DoD Format Requirements:* Conditional

Enter the employer's name or school name of the insured.

## **Item 11C:** Insurance Plan Name or Program Name, Conditional

*DoD Format Requirements:* Required

Enter the name of the insurance plan or program of the insured.

## **Item 11D:** Is There Another Health Plan Benefit? Required, if applicable

*DoD Format Requirements:* If 'Y' is checked, Items 9-9D must be completed

Check the appropriate box to indicate whether or not there is another health insurance benefit. If yes is checked, then Items 9 – 9D must be completed.

## **Item 12:** Patient's or Authorized Persons Signature, **Required** ("Signature on file" is acceptable.)

*DoD Format Requirements:* Required with a default

This item is hot keyed in with the following "Assignment of Benefits is assumed under Title 10 USC 1095" and with "Signature on file".

## **Item 13:** Insured's Authorized Person's Signature, **Required** ("Signature on file" is acceptable.)

*DoD Format Requirements:* Required with a default

This item is hot keyed in with the following "Assignment of Benefits is assumed under Title 10 USC 1095" and with "Signature on file".

## **Item 14:** Date of current Illness, Injury, or Pregnancy, Required, if applicable

*DoD Format Requirements:* Required, if applicable

Enter the current date of illness, injury or pregnancy (MM | DD | CCYY).

## **Item 15:** If Patient Has Had Same or Similar Illness, Required, if applicable

*DoD Format Requirements:* Required, if applicable

# CMS-1500 Claim Form Instructions

Enter the past occurrence date (MM | DD | CCYY) of illness or injury if it is the same or similar illness or injury.

**Item 16:** Dates Patient Unable to Work in Current Occupation, Not Required

*DoD Format Requirements:* Not required  
Leave blank.

**Item 17:** Name of Referring Physician or Other Source, Conditional

*DoD Format Requirements:* Conditional  
Enter the Name of the Physician who referred or ordered the service.

**Item 17a:** ID Number of Referring Physician, Conditional

*DoD Format Requirements:* Conditional  
Enter the number of the group ID number assigned to the physician practice/MTF by the specific third-party payer being billed. This number must match the number that is also coded in Item 33 under Grp#. The facility ID will be entered.

**Item 18:** Hospitalization Date Related to Current Services, Required, if applicable

*DoD Format Requirements:* Required, if applicable  
Enter the 8-digit date (MM | DD | CCYY) if the services were provided subsequent to a related hospitalization.

**Item 19:** Reserved for Local Use, Not Required

*DoD Format Requirements:* Not Required  
Leave blank.

**Item 20:** Outside Lab?, Not Required

*DoD Format Requirements:* Not Required  
Leave blank.

**Item 21:** Diagnosis or nature of illness or injury, **Required**

*DoD Format Requirements:* Required  
Enter the ICD-9-CM code for the patient's diagnosis/condition. The ICD-9-CM code must be coded to the highest specificity and ranked in order of priority (i.e., primary, secondary condition).

**Item 22:** Medicaid Resubmission, Not Required

*DoD Format Requirements:* Not Required  
Leave blank.

# CMS-1500 Claim Form Instructions

**Item 23:** Prior Authorization Number, Required, if applicable

*DoD Format Requirements:* Required, if applicable

Enter the prior authorization number for those procedures requiring prior authorization.

**Item 24A:** Dates of Service, **Required**

*DoD Format Requirements:* Required

Enter the 8-digit date (MM | DD | CCYY) of the time period in which the services were performed.

**Item 24B:** Place of Service, **Required**

*DoD Format Requirements:* Required

Enter the code representing an MTF (26). Should automatically print on all HCFA 1500 if blank. If coded other than “26”, prompt to ask if this is appropriate place of service code. (Do not hot code).

**Item 24C:** Type of Service, Not required

*DoD Format Requirements:* Not required

Leave blank.

**Item 24D:** Procedures, Services, or Supplies, **Required**

*DoD Format Requirements:* Required

Enter the CPT/HCPCS code, including modifiers when applicable, for the procedures, services, or supplies furnished to the patient.

**Item 24 E:** Diagnosis Code, **Required**

*DoD Format Requirements:* Required

Enter the Pointer number (1-4) from Item 21 that is applicable to that specific procedure, service or supply furnished.

**Item 24F:** Charges, **Required**

*DoD Format Requirements:* Required

Enter the charge for each listed service.

**Item 24G:** Days or Units, **Required**

*DoD Format Requirements:* Required, if applicable

Enter the number of days or units that were supplied for that particular CPT/HCPCS code listed in that line. If only one service was provided, the numeral 1 must be entered.

# CMS-1500 Claim Form Instructions

**Item 24H:** EPSDT Family Plan, Not Required

*DoD Format Requirements:* Not Required  
Leave blank.

**Item 24I:** EMG, Not Required

*DoD Format Requirements:* Not Required  
Leave blank.

**Item 24J:** COB, Optional

*DoD Format Requirements:*  
Leave blank.

**Item 24K:** Reserved for Local Use, Not Required

*DoD Format Requirements:* Not Required  
Leave blank.

**Item 25:** Federal Tax I.D. Number, **Required**

*DoD Format Requirements:* Required  
Enter the Federal Tax ID number for the physician performing the services.

**Item 26:** Patient' Account No., **Required**

*DoD Format Requirements:* Required  
Enter the patient's account number that is assigned by the MTF's accounting system to identify that particular patient.

**Item 27:** Accept Assignment, **Required**

*DoD Format Requirements:*  
Check the yes box to indicate that assignment of benefits is accepted pursuant to Title 10 USC 1095. TPOCS will default to "Y".

**Item 28:** Total Charge, **Required**

*DoD Format Requirements:* Required  
Enter the total charges for the services provided (i.e., sum of charges in Item 24F).

# CMS-1500 Claim Form Instructions

## **Item 29:** Amount Paid, Conditional

### *DoD Format Requirements:*

Enter \$0.00 to indicate that no upfront monies were paid because the military does not collect any co-payments for services rendered.

## **Item 30:** Balance Due, Conditional

### *DoD Format Requirements:*

Enter the total amount of the charges. This should match Item 28.

## **Item 31:** Signature of Physician or Supplier, **Required**

### *DoD Format Requirements:* Required

Enter the signature of the provider of service or supplier, or his representative, and the date the form was signed. A signature or stamp is required here. Some MTFs use this area to indicate who the biller was and that the bill has been reviewed.

## **Item 32:** Name and Address of Facility Where Service Were Rendered, **Required**

### *DoD Format Requirements:* Required

Enter the name, address, and telephone number of the MTF.

## **Item 33:** Physician, Supplier Billing Name, Address, Zip Code & Phone, **Required**

### **Pin#:**

### *DoD Format Requirements:*

Enter the name of the physician who rendered the services. It is now required that the provider be identified with their credentials (MD, LPN, PA, RN, etc.) System should include the provider's credentials following the name. The PIN# will be filled in with the facility ID.-

### **Group#:**

### *DoD Format Requirements:*

Represents the group practice number for a physician/multi-specialty group. At this time DoD will not provide a group number for billing purposes.

Uniform Business Office  
Outpatient Itemized Billing Training Course

# **CMS-1450/UB-92 CLAIM FORM**

Proprietary 2002

"UB-92 Claim Form"

Version 1.0

Standard Technology, Inc. Falls Church, VA

We are going to discuss the CMS-1450, better known as the UB-92 Claim Form.

Most of you are probably familiar with the UB-92 Claim Form because it is currently the standard claim form used by MTFs' for outpatient and inpatient billing.

With Outpatient Itemized Billing the UB-92 Claim Form will be used a little differently than it is being used now.

# Objectives

- **Explain the functionality and purpose of using the CMS- 1450/UB-92 Claim Form**
- **Review the Form Locators (FLs) that impact Outpatient Itemized Billing**
- **View examples of a present and future completed UB-92 Claim Form**

Proprietary 2002

"UB-92 Claim Form"

Version 1.0

Standard Technology, Inc. Falls Church, VA

2

- For Outpatient Itemized Billing the UB-92 will be used for outpatient hospital and ancillary services.
- Hospital/Ancillary Services:
  - Test and procedures ordered by healthcare providers to assist in patient diagnosis or treatment
- CPT-4 Code:
  - The service will be designated by a CPT-4 procedure code.
- Modifier:
  - A two-digit modifier will be used to indicate that the service performed deviated from the average service for that specific procedure code number or to specify a particular part of the body. (e.g., 28285-TA, Correction-Hammertoe, Left foot, Great Toe)
- Technical Component:
  - The technical component denotes services administered by medical staff such as technician and will be recorded on the UB-92 with modifier –TC. (e.g., A patient may be sent to get an x-ray. The services of the person who actually takes the x-ray would be technical services). The Professional Component is denoted with –26 modifier.
- Since most of you are familiar with the UB-92 Claim Form, we will be focusing on some of the FLs that will be new for outpatient billing or used in a different way.
- Information on required FLs that are not mentioned in this presentation can be found in your handout.
- Information on non-required FLs that are “optional” can also be found in your handout.
- You also have an example of an all-inclusive claim and an itemized claim for use as a training tool.

• **Please refer to the UB-92 claim form examples in your manual as we proceed.**

# **CMS-1450/UB-92 Claim Form Layout**

- **PATIENT INFORMATION** FL 1-41
- **BILLING INFORMATION** FL 42-49
- **PAYER INFORMATION** FL 50-66
- **DIAGNOSIS/PROVIDER INFORMATION** FL 67-86

Proprietary 2002

"UB-92 Claim Form"

Version 1.0

Standard Technology, Inc. Falls Church, VA

3

- CMS-1450/UB-92 Claim Form has 86 Form Locators and is divided into four different categories as shown.
- Does anyone know what a Form Locator is?
  - A Form Locator represents a field on the UB-92 Claim Form where valid information is placed when submitting for reimbursement from the payers.

# FLs Required for Patient Information

- **FL 3**      **Patient Control #**
- **FL 4**      **Type of Bill**
- **FL 6**      **Statement Covers Period**
- **FL 14**     **Patient Birthdate**

MTF		PATIENT CONTROLLING		ATTACHED CLAIM NO.	
Street Address		A02 - 3732		131	
City, State	Zip	(800)-555-1212 123456789 07232001 07232001

BIRTHDATE		08 10 1965 M M			

Proprietary 2002

"UB-92 Claim Form"

Version 1.0

Standard Technology, Inc. Falls Church, VA

4

- **FL 3** - is the patient control #. **Note to Trainer: Point out similarities to the CMS-1500):**
  - Comprised of Site specific prefix (based on DMIS ID) followed by a sequence number.
  - All additional claims will be numbered in succession.
- **FL 4** - is the Type of Bill. The default type of bill will be 131 for outpatient services.
  - The Type of Bill is comprised of the following:
    - 1<sup>st</sup> Digit = **Type of facility**
    - 2<sup>nd</sup> Digit = **Type of care**
    - 3<sup>rd</sup> Digit = **Sequence** of the bill for a specific episode of care
- **FL 6** - provides the starting and ending dates of service reflected on the Claim Form (8 digit format).
- **FL 14** - indicates the patient's birth date (8 digit format).
- **All FLs indicating dates require an 8-digit date (MMDDCCYY).**

# FLs Required for Patient Information

- **FL 22 Patient Status (Conditional)**
- **FL 24-30 Condition Codes (Conditional)**
- **FL 32-35 Occurrence Codes (Conditional)**
- **FL 36 Occurrence Span & Date (Conditional)**

The image shows a sample UB-92 Claim Form. The form is divided into several sections. The top section contains the patient's name, address, and city/zip code. The middle section contains the patient's date of birth, sex, and race. The bottom section contains the patient's condition codes and dates. The form is filled out with sample data, including the patient's name 'NATIONAL INS. CO', address '123 NOWHERE ST', and city/zip code 'SOMEWHERE DC 12345'. The condition codes section shows codes 11, 73, and 12, each with a date of 01 01 2001.

Proprietary 2002 "UB-92 Claim Form" Version 1.0 Standard Technology, Inc. Falls Church, VA

5

- As we review the FLs, notice on some of the slides the word “**Conditional**”.
  - **Conditional means** that these FLs are required; however, the information depends on the type of situation surrounding the episode of care.
  - Remember, it is situational, for example; in a case that a patient is injured at home or at work.
  - Remember that failure to populate conditional FLs could cause problems with processing by the payer. Claims could be rejected for need of additional information.
- **FL 22** - represents patient’s disposition as of the ending date of service for the period of care provided. (e.g., Code 01 indicates routine discharge).
- **FLs 24-30** - indicate conditions relating to the bill that may affect payer processing. (e.g., benefit eligibility period or payer codes).
- **FLs 32-35** - are codes and associated dates defining a significant event relating to the claim that may affect payer processing. (e.g., Code 11 indicates onset of symptoms/illness).
- **FL 36** - indicates the related date that identifies an event that relates to the payment of the claim .
- **Now, we’ll move to FLs that are in the Billing Information category.**

# FLs Required for Billing Information

- FL 42 Revenue Code
- FL 43 Revenue Description
- FL 44 HCPCS/Rates
- FL 45 Service Date
- FL 46 Service Units
- FL 47 Total Charges

UB-92 LINE	REVENUE CODE	REVENUE DESCRIPTION	HCPCS - RATES	SERVICE DATE	SERVICE UNITS	TOTAL CHARGES
360	Operating Room Services - General	28285 TA	07232001	1	\$ 682	91
360	Operating Room Services - General	28285 T5	07232001	1	\$ 682	91
360	Operating Room Services - General	28285 T1	07232001	1	\$ 682	91
001	Total:			3	\$2048	73

Proprietary 2002 "UB-92 Claim Form" Version 1.0 Standard Technology, Inc. Falls Church, VA

6

- The FLs in this section will be used for the most significant changes in the use of the UB-92. Each revenue code, CPT-4/HCPCS, date of service and charge is indicated on its specific detail line for itemized billing.
- MSA and MAC claims generated on the UB-92 will be manually populated in the same manner.
- As you can see, the information from the Multiple Modifier Scenario of the Modifier presentation, that was presented earlier, is being used as an example of what the line-item changes will look like on the UB-92 claim form when IB is implemented.
- FL 42 - identifies a specific accommodation and/or ancillary service performed. If this code is incorrect, it can be changed and the claim sent to the Suspense File for verification.
- FL 43 - describes the revenue code being used. (e.g., Operating Room Services – General (Revenue Code 360).
- FL 44 - indicates HCPCS/Rates being used.
  - FYI: HCPCS stands for Healthcare Common Procedure Coding System
- FL 47 – total charges. (e.g., HCPCS/CPT-4 (Rates) x Service Units = Total Charges).
- **Note:** There are a maximum of 22 itemized lines of charges that can be populated on the UB-92 Claim Form. Line 23 will be used for the combined total of all itemized lines. Additional itemized lines (anything above 23 line items) will generate a different claim form.
- Next, we'll talk about FLs in the Payer Information Category.

# FLs Required for Payer Information

- **FL 54 Prior Payment (Conditional)**

IS PAYER	IS PROVIDER	IS PAYOR	IS PRIOR PAYMENT
NATIONAL INS CO	0123	Y Y	\$00 00

- **FL 60 Certificate/SSN/Health Insurance Claim ID#**
- **FL 61 Group Name (Conditional)**
- **FL 62 Insurance Group Number (Conditional)**
- **FL 63 Treatment Authorization Codes (Conditional)**

DOE JOHN SR	01	9995553355	SOMETHING	123456
IS TREATMENT AUTHORIZATION CODE	X123			

- **FL 54** - used to document any prior payments that might have been submitted.  
- (e.g., Use when billing secondary payer or resubmitting appealed claims).
- **FL 60** - is the policy number. It can be the insured's SSN #. **It is the same information as item (1a) and item (11) on CMS-1500 Claim Form.**
- **FL 61** - indicates the insurance company group or plan name of the policy holder.
- **FL 62** - identifies the group policy holder identification number of the insurance company.
- **FL 63** - indicates that services were pre-authorized by the payer. This code is assigned by the payer.
- **The last category on the UB-92 that we'll cover is the Diagnosis Information Category**

- **FL 67**      **Principal Diagnosis Code**
- **FL 68-75**    **Other Diagnosis Codes (Conditional)**
- **FL 76**        **Admitting Diagnosis**
- **FL 77**        **External Causes Code (E Code)**

- Standard Technology, Inc. Falls Church, VA

# FLs Required for Diagnosis/Provider Information

- FL 82 Attending Physician
- FL 83 Other Physician ID
- FL 84 Remarks
- FL 85 Provider Representative
- FL 86 Date

28285		B		MICHAEL JORDON MD	
C		D		DOMINIQUE DAWES MD	
E		F		G	
Assignment of benefits is assumed under Title 10 USC 1095				Ridge Cliff 08 01 2001	

- **FL 82** - is the required provider identification with credentials.
- **FL 83** - is the required assisting provider identification with credentials.
- **FL 84** - is used for any additional information that can aid in adjudicating the claim.
- **FLs 85-86** - The signature or stamp of the provider of service or supplier or his/her representative and the date the form was signed should be completed. This area can also be used to indicate who the TPC manager is and that the bill has been reviewed.

## **FLs Not Required for Outpatient Itemized Billing**

FL 2	FL 19	FL 40
FL 7	FL 20	FL 41
FL 8	FL 21	FL 49
FL 9	FL 22	FL 55
FL 10	FL 23	FL 57
FL 11	FL 31	FL 78
FL 17	FL 37	FL 79
FL 18	FL 39	

10

- Information on this slide indicates that those FLs are not required for Outpatient Itemized Billing.
- Many of these FLs apply to inpatient services.
- For training purposes, please remember that all FLs that are not required are indicated with an “X” on the claim example.

# Key Points

- **There will be multiple line items on the UB-92, with HCPCS/CPT-4s and associated rates, identifying outpatient surgery, clinical diagnostic lab, radiology, and other diagnostic services.**
- **Revenue codes will be listed on UB-92 (not the CMS-1500) and can be modified by the biller; each line item listed in FL 44 will have an associated revenue code.**

- Are there any questions?

# UB-92 Claim Form Instructions

## **FL 1:** Provider Name, Address & Telephone #, Required

### *DoD Format Requirements:* **Required**

Enter the name of the provider, address and telephone numbers. They should be on four lines as follows:

Line 1	Provider name
Line 2	Street address or post office box number
Line 3	City, state, and zip code
Line 4	Area code, telephone number, fax number, and country code

## **FL 2:** Unlabeled Field, Not Required

### *DoD Format Requirements:* Not Required

Leave blank.

## **FL 3:** Patient Control No., **Required**

### *DoD Format Requirements:* Required

Enter the patient's account number that is assigned by the MTF's accounting system (TPOCS) to identify that particular patient. This account number is the same number as Item 26 on the HCFA 1500 claim form for the same episode of care/date of service.

## **FL 4:** Type of Bill, **Required**

### *DoD Format Requirements:* Required

Enter a three-digit code that indicates whether the bill type based on the following guidelines. The default type of bill will be 131 for outpatient services with the system capabilities to select other bill types when necessary.

First Digit	Second Digit	Third Digit
This digit identifies the type of facility.	This digit classifies the type of care being billed.	This digit indicates the sequence of the bill for a specific episode of care.

# UB-92 Claim Form Instructions

## **FL 5:** Fed. Tax No., **Required**

*DoD Format Requirements:* Required

Enter the Hospital/MTF's Federal Tax number that is assigned by the federal government for tax reporting purposes.

## **FL 6:** Statement Covers Period, **Required**

*DoD Format Requirements:* Required

Enter the beginning and ending dates (CCYYMMDD) for the entire period reflected on the bill.

## **FL 7:** Covered Days, **Not Required**

*DoD Format Requirements:* Not Required

For inpatient Medicare/Medicaid, enter the total number of days reported in FL 46. For outpatient claims, leave blank.

## **FL 8:** Non-Covered Days, **Not Required**

*DoD Format Requirements:* Not Required

Leave blank.

## **FL 9:** Coinsurance Days, **Not Required**

*DoD Format Requirements:* Not Required

Leave blank.

## **FL 10:** Lifetime Reserve Days, **Not Required**

*DoD Format Requirements:* Not Required

Leave blank.

# UB-92 Claim Form Instructions

## **FL 11:** Unlabeled Field, Not Required

*DoD Format Requirements:* Not Required  
Leave blank.

## **FL 12:** Patient Name, **Required**

*DoD Format Requirements:* Required  
Enter the patient's name (last name, first name and middle initial)

## **FL 13:** Patient Address, **Required**

*DoD Format Requirements:* Required  
Enter the full mailing address of the patient.

## **FL 14:** Patient Birthdate, **Required**

*DoD Format Requirements:* Required  
Enter the patient's date of birth (MMDDYYYY).

## **FL 15:** Patient Sex, **Required**

*DoD Format Requirements:* Required  
Enter the sex of the patient as recorded at the time of registration as an inpatient or outpatient or at the start of care. This field is one alphanumeric field (M, F, U [unknown]).

## **FL 16:** Patient Marital Status, **Required**

*DoD Format Requirements:* Required  
Enter the marital status of the patient as recorded at the time of registration as an inpatient or outpatient or at the start of care. If unknown, the field will default to 'U'.

S	single
M	married
D	divorced
W	widowed
X	legally separated
U	unknown

## **FL 17:** Admission Date, Not Required

*DoD Format Requirements:* Not Required  
Enter the date (MMDDCCYY) the patient was admitted to the provider as an inpatient, outpatient, or other start of care.

# UB-92 Claim Form Instructions

## **FL 18:** Admission Hour, Not Required

*DoD Format Requirements:* Not Required

Enter the hour (see below for format) during which the patient was admitted for inpatient or outpatient care.

00	12:00 (midnight) – 12:59 AM
01	01:00 – 01:59
02	02:00 – 02:59

# UB-92 Claim Form Instructions

**FL 37:** Internal Control Number (ICN)/Document Control Number (DCN), Not Required

*DoD Format Requirements:* Not required  
Leave blank.

**FL 38:** Responsible Party Name and Address, **Required**

*DoD Format Requirements:* Required  
Enter the name and address of the party responsible for the bill.

**FL 39-41:** Value Codes and Amounts, Conditional

*DoD Format Requirements:* Required, if applicable  
These fields contain codes and the related dollar amount identifying monetary data necessary to process this claim. Space for up to 12 value codes and associated amounts can be identified in FL 39, 40, 41 (a, b, c, d). Data entered into these FL will represent any services provided by the MTF which are being billed on a separate claim form other than the current UB-92 claim form. This field will be automatically populated with the value code '05' to indicate that the professional components are included in the charges but are also billed separately to the carrier. The associated monetary value will then be deducted from the total covered charges reported on the UB-92 claim. The total amount of these services will not be reflected in Est. Amt Due field (FL-55), on the UB-92 form, but will in most cases be reflected on the HCFA 1500 claim form.

## **FL 42: Revenue Code, Required**

*DoD Format Requirements:* Required

Enter the numeric code corresponding to identify a specific accommodation and/or ancillary service performed. Refer to the UB-92 manual for a listing of revenue codes and their

# UB-92 Claim Form Instructions

definitions. In most cases, the revenue code will reflect the clinic visit charge. The system capability to enter and print duplicate revenue codes is required when billing payer organizations. Each revenue code will be listed in FL-42 and the corresponding CPT-4 or HCPCS code will be associated in FL-44 to differentiate the type of services which were provided and therefor provide verification that the services billed were not considered duplicates.

In all cases, revenue code 001 must be on the last line, reflecting the claim's total charges.

## **FL 43** Revenue Description, **Required**

*DoD Format Requirements:* Required

This field will be automatically filled in with the description of the CPT Code or drug listed in FL 44.

## **FL 44:** HCPCS/Rates, **Required**

*DoD Format Requirements:* Required

Enter the accommodation rate for inpatient bills and HCPCS applicable to ancillary services for outpatient bills. This field is automatically populated with the correct rate.

## **FL 45:** Service Date, **Required**

*DoD Format Requirements:* Required

Enter the date the service was provided.

## **FL 46:** Unit of Service, **Required**

*DoD Format Requirements:* Required

Enter the total number of covered accommodation days, units or visits. In most cases, the units will be the numeral one.

## **FL 47:** Total Charges, **Required**

*DoD Format Requirements:* Required

Enter the total charges reflected on this claim for the statement covers period (FL 6). This field will be automatically calculated and populated.

## **FL 48:** Non-Covered Charges, **Optional**

*DoD Format Requirements:*

Leave blank.

## **FL 49:** Unlabeled Field, **Not Required**

*DoD Format Requirements:* Not Required

# UB-92 Claim Form Instructions

Leave blank.

## **FL 50:** Payer, Required

### *DoD Format Requirements:* **Required**

Enter the name and, if required, the number identifying each payer organization from which the provider might expect some payment for the bill. Line 50A is for the primary payer. Line 50B is used for the secondary provider, if applicable.

## **FL 51:** Provider Number, **Required**

### *DoD Format Requirements:* Required

Enter the provider number which is assigned by the insurance carrier/payer organization listed in FL 50.

## **FL 52:** Release of Information Certification Indicator, **Required**

### *DoD Format Requirements:* Required

Enter Y to indicate that the MTF has on file a signed statement permitting them to release data to other organizations in order to adjudicate the claim. TPOCS will default to 'Y'.

## **FL 53:** Assignment of Benefit, **Required**

### *DoD Format Requirements:* Required

A "Y" is indicated to confirm that the MTF has a signed form authorizing the third party payer to pay them. TPOCS will default to 'Y'.
